

New York Medical College Medical School and AMP Program Computer Requirement Effective May 2018

All medical students are required to bring a laptop to perform mandatory electronic exam and class session activities that require a computer. Students are responsible for maintaining a virus/spam free laptop. The specifications below ensure adequate operation during your required laptop sessions. Failure to meet the specifications below may result in compatibility and/or performance issues that are the responsibility of the student to rectify. Please contact edtech@nymc.edu for further assistance.
