

# NEW YORK MEDICAL COLLEGE

A MEMBER OF THE Touro College and University System

## Graduate School of Basic Medical Sciences

### INTEGRATED PH.D. PROGRAM

#### Standard Fall Term Course Selections for New Students (10 credits)

BCHM 1010	General Biochemistry I	4 credits
BMSM 3510	Life in Biomedical Research I	2 credits
BMSM 9110	Research Rotation*	1 credit
	Electives	4 credits

\*Enrollment in a “Journal Club” course is not required in the first year since you will be attending journal clubs and research seminars of the department in which you are working during the semester of the rotation.

#### Elective Course Selections, Fall Term

Your elective course choices *must* be made in consultation with your first-year academic advisor, based on the discipline you anticipate entering the following year. Your choice will also depend upon your background and previous experience, which you should discuss with your academic advisor. Most of you will take *one* of the following courses:

PHYM 1010	Mammalian Physiology I	4 credits
MCRM 1010	General Microbiology I	4 credits

**Your choice of elective now will NOT restrict your choice of a major at the end of the year.**
