Please Note:

All students in the Department of Speech-Language Pathology are subject to the policies/procedures set forth in this handbook. If the handbook is revised, students are subject to the updated handbook policies/procedures. If any information in this handbook is inconsistent with College policy, the policy of the College prevails. New York Medical College reserves the right to change policies and procedures at any time and without prior notice. Errors and omissions in published documents (written or electronic) may be corrected at any time. This handbook is provided for informational purposes only and is not a contract.

Students are required to sign a document attesting to having received and read the Graduate Student Handbook.

**Department Faculty and Staff**

**Kathleen Franklin, PhD, CCC-SLP**  
Department Chair and Associate Professor  
Chief, Division of Speech and Language Pathology at Boston Children’s Health Physicians  
Clinical Instructor at Boston Children’s Health Physicians  
BA, University of Nebraska, Lincoln  
MS, University of Nebraska, Lincoln  
PhD, University of Nebraska, Lincoln

**Kathleen M. Kaiser, MS, CCC-SLP, TSHH**  
Assistant Professor  
Director of Clinical Education  
Clinic Director, Boston Children’s Health Physicians  
Clinical Instructor at Boston Children’s Health Physicians  
BA, Boston College  
MS, Teachers College, Columbia University

**Vikas Grover, PhD, CCC-SLP**  
Assistant Professor  
Clinical Instructor at Boston Children’s Health Physicians  
B.Sc., Mangalore University, Karnataka, India  
M.A., Delhi University, India  
M.Phil., Delhi University, India  
M.Phil., The Graduate Center, The City University of New York  
Ph.D., The Graduate Center, The City University of New York

**Eileen Hunsaker, MS, CCC-SLP**  
Assistant Professor  
Clinical Instructor at Boston Children’s Health Physicians  
BS, Brigham Young University  
MS, University of Utah
Barbara J. Leader, MA, CCC-SLP  
Assistant Professor  
Clinical Instructor at Boston Children’s Health Physicians  
BA, Queens College  
MA, Hunter College

Monica A. McHenry, PhD, CCC-SLP  
Professor  
Director, Voice and Motor Speech Lab  
BS, Bloomsburg State College  
MS, Pennsylvania State University  
PhD, University of Washington

Luis F. Riquelme, PhD, CCC-SLP, BCS-S  
Associate Professor and Director, Pediatric Dysphagia Certificate Program  
Director, Barrique SLP @ Center for Swallowing & Speech-Language Pathology  
New York Presbyterian Brooklyn Methodist Hospital  
Clinical Instructor at New York Presbyterian Brooklyn Methodist Hospital  
Clinical Instructor at Boston Children’s Health Physicians  
BA, Long Island University  
MS, Teachers College, Columbia University  
PhD, The Graduate School & University Center, The City University of New York

Core Adjunct Faculty

Lauren B. Alter, MS, CCC-SLP, TSSLP  
Adjunct Assistant Professor  
Clinical Instructor at Boston Children’s Health Physicians  
BS, University of Wisconsin, Madison  
MS, New York Medical College
Sreedivya Radhakrishnan, PhD, FAAAA
Adjunct Assistant Professor
BS, All India Institute of Speech and Hearing, Mysore (Karnataka), India
MS, All India Institute of Speech and Hearing, Mysore (Karnataka), India
PhD, Kent State University

Lisa A. Velella, MA, CCC-SLP, TSHH
Adjunct Assistant Professor
Clinical Instructor at Boston Children’s Health Physicians
BA, St. John’s University
MA, St. John’s University

Staff

Yesenia Antepara
Patient/Clinical Coordinator
Department of Speech-Language Pathology
Division of Speech and Language Pathology at Boston Children’s Health Physicians

Kimberly Benedon
Secretary for Clinical Education
Department of Speech-Language Pathology
Division of Speech and Language Pathology at Boston Children’s Health Physicians
Adjunct Faculty

Alexandra Heinsen-Combs, MS, CCC-SLP, Adjunct Assistant Professor
BA, St. John's University
MA, New York University

Melissa K. Levy, MS, CCC-SLP, Adjunct Assistant Professor
BA, American University
MS, New York Medical College

Lindsay A. Murray-Keane, MS, CCC-SLP, TSSLD, Adjunct Assistant Professor
BS, New York University
MS, New York Medical College

Daniel F. Peters, MD, FACS, Associate Professor of Clinical Health Science
BS, University of Notre Dame
MD, New York Medical College
Fellow of the American College of Surgeons

Christina M. Pipala, MS, CCC-SLP, Adjunct Assistant Professor
BS, Ithaca College
MS, Ithaca College

Emily Stoddard, MS, CCC-SLP, Adjunct Assistant Professor
BA, Brown University
MS, Teachers College, Columbia University

Section 1
Overview of the Master of Science in Speech-Language Pathology

The Department of Speech-Language Pathology at New York Medical College (NYMC) is aligned with the College’s mission to educate physicians, scientists, public health specialists, and other healthcare professionals, and to conduct biomedical and population-based research. Through its faculty and affiliated clinical partners, the College provides service to its community in an atmosphere of excellence, scholarship and professionalism. NYMC believes that the rich diversity of its student body and faculty is important to its mission of educating outstanding health care professionals for the multicultural world of the 21st century.

School of Health Sciences and Practice Mission and Values

Mission
We prepare tomorrow’s leaders to preserve, protect, and improve the health of individuals, families and communities through education, investigation, practice and service.

NYMC Values
At NYMC, we teach that while being educated and skilled is critical to success, to truly make a difference and fulfill the duties and responsibilities that the medical and health service professions require, our students must also be compassionate. They must perform ethically and with empathy, delivering patient-centered care that provides emotional as well as physical benefits. To that end, we emphasize the following values that are infused throughout the curriculum and are an integral part of the overall culture at NYMC.

- **Humanism** – At the most basic level, our students must see their patients as people first. Though there may be a presenting illness or infirmity, focusing solely on the flaw can be dehumanizing, and can distance the care provider from the person he or she is treating. By learning early on that patients are more than just their problems, our students are able to provide compassionate care while engaging with and treating the whole person.

- **Cultural Competency** – Our community and the communities in which our students will learn to practice are diverse. Yet cultural competency is more than merely being respectful and accepting of difference. It’s also about being attuned to cultural values and cues. Language differences, beliefs about the body and medicine, varying socioeconomic and educational levels, and feelings of pride and shame relating to gender and ethnicity are present in every interaction. Being mindful – if not fluent – in these cultural issues can make all the difference in the world.

- **Intellectual Curiosity and Scientific Inquiry** – In their educations and in their careers, students are expected to seek out, master, and respond to the latest advances in their fields of study. At NYMC, we also educate students to be active participants and pioneers. Whether by conducting basic, clinical, or translational research, or simply
challenging assumptions and testing established practices in their work, our students are never to be satisfied with pat answers and the status quo.

- **Professionalism** – At all times – in thought, speech, and action; in presentation and in performance; with peers, colleagues, and patients – our students are expected to act professionally from day one. In other words, they must be always be ethical, respectful, conscientious, prepared and accountable. Everywhere they go, in everything they do, our students understand that they represent NYMC and their own personal and professional integrity.

- **Multiple Modes of Learning** – There are more ways to learn than simply through classroom and lab work. NYMC offers numerous opportunities for our students to enhance their curricular lessons, such as through student organizations, community service, research projects and internships. These activities help to build leadership skills, offer access to new knowledge and information, and enable students to broaden their perspectives and make friends and future professional contacts.

- **Aptitude for Patient Care** – The best reasons for providing patient care shouldn’t be a big paycheck. A strong desire to help people and the ability to provide exceptional care comprise the key traits every medical and health service professional should possess. Some of these things can be taught, but we find that NYMC students self-select our school because they truly wish to make a difference in people’s lives.

- **Interpersonal Skills** – In dealing with peers, faculty, and especially patients, it is essential to be an effective communicator. We expect our students to say what they mean, mean what they say, and be gracious, respectful, and flexible at all times. Strong interpersonal skills make students better able to work as part of a team and to engender support from fellow students and faculty.

**Department of Speech-Language Pathology Mission Statement**

The Department of Speech-Language Pathology prepares skilled clinicians who are committed to evidence-based and ethical practice in the delivery of speech-language and swallowing services in healthcare facilities and other professional settings. The curriculum focuses on an integration of research and clinical applications across academic and clinical coursework. The department supports and initiates the development of inter-professional practice skills within the college and in community-based clinical practice settings. The department promotes clinical excellence in the community through service activities and continuing professional education opportunities. The department affirms its commitment that graduates meet the standards for clinical certification through the American Speech-Language-Hearing Association.
Department of Speech-Language Pathology Strategic Plan
January 2019-December 2021

Executive Summary

The goal of the department’s strategic plan for this reporting period is to maintain current standards of excellence in academic and clinical training as a medically based speech-language pathology program. This plan draws on the College’s Strategic Plan (2015-2020) that outlines Seven Strategic Pathways to include:

Strategic Pathway I: Educational Excellence
Strategic Pathway II: Faculty Recruitment, Retention and Development
Strategic Pathway III: Create an environment that values, promotes and supports excellence in basic science, clinical and translational research
Strategic Pathway IV: Develop an integrated College-wide culture, that encourages efficiency, ensures accountability and that works together to achieve the vision and missions of NYMC.
Strategic Pathway V: Enhance our facilities, infrastructure, and environment to promote our tripartite mission of excellence in scholarship, research and clinical care.
Strategic Pathway VI: Excellence in our Financial Performance
Strategic Pathway VII: Continue to enhance NYMC’s contribution to the health and needs of the Hudson Valley region

The department’s strategic plan is also aligned with the School of Health Sciences and Practice Pathways to Progress (2017-2018) derived from the College’s plan and included the following:

Goal 1: Outshine the Competition
Goal 2: Strengthen Fiscal Structure
Goal 3: Strengthen Support for Faculty
Goal 4: Create an Exceptional Student Experience

Using this framework, the department identified specific aspects of the College and SHSP pathways to determine goals to meet or exceed the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) Standards and ensure that the students meet the Council for Clinical Certification in Audiology and Speech-Language Pathology 2020 CFCC Standards.

New York Medical College Mission Statement

New York Medical College is a health sciences university whose purpose is to educate physicians, scientists, public health specialists, and other healthcare professionals, and to conduct biomedical and population-based research. Through its faculty and affiliated clinical partners, the College provides service to its community in an atmosphere of excellence, scholarship and professionalism. New York Medical College believes that the rich diversity of its student body and faculty is important to its mission of educating outstanding health care professionals for the multicultural world of the 21st century.
New York Medical College School of Health Sciences and Practice Mission Statement

We prepare tomorrow’s public health leaders to preserve, protect and improve the health of individuals, families and communities through education, investigation, practice and service.

New York Medical College Department of Speech-Language Pathology Mission Statement

The Department of Speech-Language Pathology prepares skilled clinicians who are committed to evidence-based and ethical practices in the delivery of speech-language and swallowing services in health care facilities and other professional settings. The curriculum focuses on integrating research and clinical applications across academic and clinical courses. The department promotes the development of inter-professional practice skills within the college and in community-based clinical practice settings. The department promotes clinical excellence in the community through service activities and continuing professional education opportunities. The department affirms its commitment that graduates meet the standards for clinical certification through the American Speech-Language-Hearing Association.

In pursuit of achieving our Mission and to align with the College and School of Health Sciences and Practice strategic pathways and external certification standards, the department identified goals in the following areas: Education; Clinical Training; Research; Community Engagement; and Faculty Support.

Education:
*The Department will:*
- Educate students to become outstanding speech-language pathologists;
- Develop and utilize existing inter-professional education opportunities;
- Sponsor continuing education programs for practicing clinicians and clinical educators who provide graduate student training;
- Provide educational opportunities with a multicultural perspective through graduate and alumni programs.

*(Developed in support of College Strategic Pathways I and IV; SHSP Pathways to Progress Goals 1 and 4; CAA and CFCC Standards)*

Clinical Training:
*The Department will:*
- Provide clinical training opportunities to ensure competence in medical speech-language pathology;
- Broaden the clinical population/activities available through the department clinic;
- Ensure clinical experiences across the lifespan;
- Reinforce awareness and application of approaches to assessment and treatment of culturally and linguistically diverse populations.

*(Developed in support of College Strategic Pathways I, IV and VII; SHSP Pathways to Progress Goals 1 and 4; CAA and CFCC Standards)*
Research:
*The Department will:*
- Promote the use of evidence-based practice principles in academic and clinical training;
- Promote excellence in the education of speech-language pathologists through clinical research;
- Involve interested students in faculty research.
*(Developed in support of College Strategic Pathways I and III; SHSP Pathways to Progress Goals 1, 3 and 4; CAA and CFCC Standards)*

Community Engagement:
*The Department will:*
- Continue to provide speech-language and hearing screenings in the community;
- Support student involvement in community-based opportunities;
- Support student opportunities in international clinical experiences.
*(Developed in support of College Strategic Pathways I, V and VII; SHSP Pathways to Progress Goals 1 and 4; CAA and CFCC Standards)*

Faculty Support:
*The Department will:*
- Ensure that resources are available to support faculty research activities;
- Ensure that resources are available to support classroom teaching innovations;
- Ensure that resources are available to support faculty continuing education;
- Recruit faculty to support the program’s mission;
- Streamline communication mechanism with the SHSP Dean’s Office.
*(Developed in support of College Strategic Pathways I and II; SHSP Pathways to Progress Goal 3 and CAA and CFCC Standards)*

**Graduate Program Overview**

The Department of Speech-Language Pathology offers the Master of Science (M.S.) degree and provides entry level professional education. The academic and clinical components are designed to prepare skilled clinicians who are committed to excellence in the delivery of speech-language pathology services in health care and other professional settings. Faculty and students use clinical and technological resources based on evidence-based practice principles to advance the field of communication sciences and disorders through research and clinical care. This full-time program is designed to be completed in five to six consecutive semesters starting in the fall. English is the language of instruction throughout the curriculum.

**Accreditation Status**

The master’s (M.S.) education program in speech-language pathology at New York Medical College is accredited by the Council on Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association, 2200 Research Boulevard
Academic Program

The academic coursework sequence occurs across all five semesters of the program. A sixth semester is available for students who require additional time to complete clinical requirements. Academic courses are intended to provide each student with the theoretical background knowledge and essential skills necessary to engage in supervised clinical practice as a speech-language pathologist during the clinical fellowship experience resulting in eligibility for certification and licensure.

Course Descriptions

**SLPM 6001 Foundations of Speech, Language and Cognition**
This course examines the normal development of phonology, morphology, syntax, semantics and pragmatics in children’s communication in the context of monolingual and bilingual populations. A comprehensive review of the theories of language development, acquisition, cultural and environmental factors contributing to language development will be provided. This information will establish a foundation for effective evaluation of both normal and disordered language as well as provide an understanding of how language affects academic achievement as well as social and emotional development.

**SLPM 6004 Advanced Anatomy of the Speech and Hearing Mechanisms**
The anatomy of speech and swallow is examined in detail. Students will develop an appreciation of how the relevant body systems (chest, lungs, heart, abdomen, neck, cranial cavity, cranial nerves, etc.) contribute to the speech, swallowing, and breathing mechanisms. This is achieved through an integrated didactic and laboratory experience. Students use cadaver dissection to reinforce concepts and help them gain a three dimensional understanding of the interplay of processes resulting in normal as well as abnormal function.

**SLPM 6008 Speech Sound Disorders**
This course surveys the theory, clinical effects, and management of phonological disorders related to native and second language acquisition. It also examines the management of articulatory disorders of a nonlinguistic character. Training in the use of the International Phonetic Alphabet to transcribe speech sounds is an important component of this course. Students develop facility in transcribing English as well as disordered speech.

**SLPM 6009 Language Disorders of Children**
This course examines the etiology of childhood disorders of language and communication as well as theoretical and practical approaches to the assessment and remediation of these disorders. Students gain knowledge of the influence of language and culture on the habilitation/rehabilitation of childhood language disorders.

**SLPM 6010 Diagnostic Methods and Clinical Processes**
**SLPM 6050 Diagnostics Lab**
This course examines theoretical and practical applications of current practices in the assessment and management of speech, language, and swallowing disorders across the lifespan. The primary focus is on assessment and intervention principles and practices that are applicable to a broad spectrum of individuals and disorders. The course emphasizes the development of skill in professional report writing. Lab sessions provide practical experience in administering and scoring formal and informal assessments, as well as developing appropriate assessment protocols for a variety of populations. Issues of cultural sensitivity, non-biased assessment and bilingualism are also introduced.

**SLPM 6011 Voice Disorders**
This course addresses methods of evaluating and remediating voice problems in children and
adults that result from a disturbance or disruption in laryngeal function, including disorders caused by neurological conditions, phonotrauma, psychological factors and non-neurological organic processes. Cultural differences and preferences are considered.

**SLPM 6012 Fluency Disorders**

The course reviews contemporary theories pertaining to the nature, etiology, and treatment of disfluent speech. Factors to consider in differential diagnosis and prognosis are also considered. Therapeutic principles and management procedures for pre-school and school-aged children and adults are studied.

**SLPM 6013 Neuromotor Speech Disorders**

This course uses the background provided in Neuroscience to provide a thorough grounding in the neuropathologies of acquired and congenital motor speech disorders (the various forms of dysarthria and apraxia of speech). Using this grounding, the student will study rationales and procedures for the differential diagnosis and treatment of these disorders. Students will develop proficiency in the neurological examination as it pertains to speech and swallowing functions.

**SLPM 6014 Dysphagia**

This course provides a thorough understanding of normal swallow physiology and its related disorders across the lifespan. Etiological factors are reviewed. Instrumental diagnostic techniques are introduced, with strong emphasis on videofluoroscopy and nasoendoscopy. Further emphasis is given to multiple management issues in general, as well as by varied cultural groups. Evidence-based practice issues are incorporated into all aspects of the course. Interdisciplinary approaches to the assessment and treatment of swallowing disorders are discussed. Course includes several practical assignments and clinical observations.

**SLPM 6019 Adult Neurogenic Language Disorders**

This course addresses the nature, assessment and remediation of language and communication disorders associated with syndromes of aphasia. Students gain knowledge of the effects of language and culture on the rehabilitation of adult-onset language disorders.

**SLPM 6020 Adult Neurogenic Cognitive Disorders**

This course reviews the nature, assessment, and remediation of cognitive, perceptual, and communication disorders associated with traumatic brain injury, right hemisphere dysfunction, and dementia. Associated nonlinguistic disorders such as coma, agitation, and neglect are considered. Discussions include cross-cultural and lifespan considerations in communication and the management of communication disorders.

**SLPM 6022 Audiology for Speech-Language Pathologist**

This course is designed to provide the knowledge and skills required by speech-language pathologists in the area of hearing to include the impact on speech and language. Topics will include an overview of the anatomy/physiology of hearing, acoustic, perceptual concepts of sounds and etiologies that result in hearing loss. Students will learn screening procedures consistent with the Scope of Practice in Speech-Language Pathology and referral criteria for
pediatric, adult, and geriatric populations. The course covers habilitation and rehabilitation of individuals with hearing loss. Psychological, social, and educational aspects of hearing loss in children and adults are addressed. Processes for management of hearing loss are discussed to include amplification, counseling and treatment strategies.

**SLPM 6029 Seminar in Early Intervention**
Seminar surveys the characteristics of infants, toddlers, and preschool children with, or at risk of developing, disabilities; working with families through various types of services while considering cultural and linguistic variables; providing parent training and support; the development of trans-disciplinary teams, the role of team members, and the development of teaming skills. Consultation, collaboration, and communication with other professionals and parents are covered in this course.

**SLPM 6031 Seminar in Counseling**
This seminar surveys major approaches to counseling within the context of communication disorders. Students examine the emotional and practical issues pertaining to the full range of communication disorders across the lifespan as they affect patients and their caregivers. Students study interviewing and counseling techniques for individuals, families and groups. The implications of multicultural and linguistic diversity for effective counseling are considered throughout the course. Ethical and professional issues relevant to counseling are brought into vivid focus as they are discussed in the context of students’ clinical experiences. At the close of the course, each student presents counseling information and resources pertaining to specific communication disorders.

**SLPM 6032 Neuroscience**
This course is designed to provide a foundation in the fundamentals of neuroanatomy and neurophysiology. Normal and disordered function will be addressed in the context of speech, language, and cognition.

**SLPM 6035 School-Based Speech-Language-Hearing Services**
This course examines federal and state laws concerning service delivery in a school setting. Students develop skills in working with general curriculum teachers and other specialists to meet the needs of communication-disordered students with the full range of disabilities and cultural considerations. Problem-based learning activities are used to explore creative and innovative means of assisting these children in accessing the general curriculum.

**SLPM 6040; 6041; 6042; 6043; 6067 Clinical Practicum Experiences 1 credit per semester**
Registration for clinical practicum experiences is required during each semester. Students participate in a minimum of two internal clinical rotations at our on-campus clinic. Upon successful completion of the internal rotations, students participate in three different off-campus clinical rotations at hospitals, rehabilitation centers, schools, or private practices. Students must receive a passing grade in each practicum rotation in order to continue to the next practicum experience. Selected pediatric clock hours within these experiences may be counted toward the school based practica requirement for teacher certification.
SLPM 6045; 6046; 6047 Seminar in Professional Issues and Ethics
This seminar series includes discussion of the scope of practice in speech-language pathology and professionalism with a focus on supervision. Professional and ethical standards of practice are reinforced with a consideration of cultural differences. Perspectives on speech-language pathology relative to public health issues are covered.

SLPM 6053 Augmentative and Alternative Communication (AAC)
This course is intended to facilitate an understanding and awareness of the communication options available to individuals who are unable to meet their daily communication needs through natural modes. The emphasis of this course is on determining appropriate technology supports that can be used to increase communication and daily functioning. The course covers characteristics of congenital and acquired communication disorders and cultural considerations; AAC and other assistive technology (AT) options and features; principles of AAC assessment; service delivery models; AAC intervention; funding; and current research in AAC.

SLPM 6062; 6063, 6064 Seminar in Management of Medical Patients I, II and III
This three-part seminar course introduces students to the scope of speech-language pathology practice in medical settings. It provides familiarity with speech-language cognitive and swallowing disorders commonly encountered in medical settings; as well as medically-oriented diagnostic, treatment and reporting practices. Students will also acquire familiarity with equipment and terminology employed in medical settings, and with elements of pathophysiology and pharmacology associated with speech-language disorders in medical settings. Specific content will include infection control practices, exposure to critical care units and pertinent equipment, working with laryngectomized individuals and gaining familiarity with tracheo-esophageal puncture and one-way valves, working with patients that are ventilator-dependent with/without speaking valves, understanding of syndromology and cranio-facial anomalies in the context of feeding/swallowing and communication. In addition, specific public health issues will be addressed, including: reimbursement practices, impact on clinical practice in a variety of settings, collaboration with other professionals.

SLPM 6066 Speech Science
This course encompasses an advanced study of the physiological functions responsible for the production of speech and the acoustic correlates of those functions. Topics include respiratory kinematics, phonatory dynamics, models of speech production and perception.

SLPM 6068 Pediatric Dysphagia
This course provides an understanding of pediatric feeding and swallowing disorders. Exploration of normal communication of the infant, toddler and preschooler with emphasis on a multidisciplinary approach. Evaluation procedures and recommendations will be addressed as well as evidence based therapeutic techniques. Counseling and parent training is discussed with consideration to cultural variables. Students become familiar with texture/characteristics of various foods and its impact on feeding and swallowing. Class encompasses overall developmental issues of the birth to preschool population.
SLPM 6069 Research Methods in Communication Disorders
This course is designed to help students learn to critically analyze research in communication sciences and disorders. Critiques will include consideration of statistical analyses, subject selection criteria, ethics, strength of evidence, and potential fatal flaws. Writing skills will be developed through APA practice and annotated bibliographies and outlines, and will culminate in a formal PICO statement with supporting evidence.

SLPM 7090 Overseas Elective
This elective course will focus on the ongoing development of clinical skills in measurement and evaluation procedures for adults with speech, language, and/or swallowing disorders in a variety of locations outside the United States proper. This will include approved international and territorial sites. Students will engage in collaborative projects with other students at the site, as well as explore the delivery of speech-language pathology, and other healthcare services to adult and pediatric populations in a variety of settings.

SLPM 7091 Research Experience
Students selecting this option will complete an extensive review of existing literature or complete a clinical research project on a specific topic in an area endorsed by a faculty mentor. Students may be participating in components of clinical research, inter-professional education opportunities, or community-based initiatives. Finished products will include a compilation of the information and presentation of the project in selected local and/or regional venues.
Clinical Program

The clinical practicum sequence occurs across all semesters of the program. The first two semesters of clinical work occur in the department’s on-site clinic, Boston Children’s Health Physicians Division of Speech-Language Pathology. Students work with academic and clinical faculty in the development of knowledge and skills in planning/execution of diagnostic and treatment strategies with pediatric and adult patients. Opportunities are available for individual and group treatment. The program offers three external rotation opportunities that occur during semesters three, four, and five. Students are provided with experiences that cover the lifespan across a variety of clinical settings to include at least one healthcare setting (e.g., acute care hospital, acute, subacute, or long-term rehabilitation facility, pediatric inpatient facility, outpatient medical setting, etc.). Other clinical environments include public and private schools, preschools, Early Intervention, private practices, pediatric and adult outpatient centers. One external rotation consists of a combination of inpatient and outpatient medically-based experiences designed to provide students with a wide variety of foundational skills in medically-based speech-language pathology. These include: inpatient and outpatient instrumental swallow studies (adult and pediatric); inpatient and outpatient evaluations (adult and pediatric); experience in Critical Care unit, to include trach/vent (adult), inpatient and outpatient language groups (adult and pediatric) as well as outpatient therapy at the on-campus clinic. Students participate in inpatient and outpatient experiences in Audiology as well. All of these experiences are competency-based.

Academic Calendar

The Department of Speech-Language Pathology sets a calendar each year, which may differ from the published New York Medical College calendar. The full-year academic calendar is provided to incoming graduate students at or before orientation. Students should be aware that clinical experiences may not follow the academic calendar. Clinic time during a semester may be extended due to the schedule maintained by the site, weather or other unexpected closures, or if a student requires more opportunities to achieve competency and/or required hours. Such extensions will be achieved through mutual agreement with the clinical site.

Advising

Graduate students are assigned an academic advisor. Specific details of advising are described in Section Two of this handbook.

Comprehensive Exam

Graduate students are required to complete a summative evaluation in the form of a comprehensive examination. The comprehensive exam occurs within the final year of the graduate program. Specific details of the comprehensive exam are described in Section Two of this handbook.
Program Electives

Graduate students have several optional electives; these are offered in addition to the standard curriculum. They include a clinical experience overseas, and a research experience option. Specific details on program electives are described in Chapter Two of this handbook.

Overseas Elective (1 credit)
Students who choose to select this elective course will focus on the ongoing development of clinical skills in measurement and evaluation procedures for adults with speech, language, and/or swallowing disorders in a variety of locations outside the United States proper. This will include approved international and territorial sites. Students will engage in collaborative projects with other students at the site, as well as explore the delivery of speech-language pathology, and other healthcare services to adult and pediatric populations in a variety of settings. Students are responsible to pay for airfare and meals; shared costs will be assessed for hotel and transportation at the site.

Research Experience (1 credit)
Students selecting this option will complete a research project in an area identified by a faculty mentor. Individuals or work groups may participate in components of clinical research, inter-professional education opportunities, or community-based initiatives. Students will complete work guided by a faculty mentor. Finished products will include a document summarizing the findings of the information and a presentation of the project in selected local and/or regional venues. Students interested in pursuing research experience should initiate a discussion with assigned academic advisor.

Essential Functions

“In order to acquire the knowledge and skills requisite to the practice of speech-language pathology to function in a broad variety of clinical situations, and to render a wide spectrum of patient care, individuals must have skills and attributes in five areas: communication, motor, intellectual-cognitive sensory-observational, and behavioral-social. These skills enable a student to meet graduate and professional requirements as measured by state licensure and national certification. Many of these skills can be learned and developed during the course of the graduate program through coursework and clinical experiences. However, there are skills that are most inherent and should be present when a student begins the program.”

Source: Council of Academic Programs in Communication Sciences and Disorders, 2007

Admitted students are required to review and acknowledge capacity to fulfill these essential functions. Failure to meet or maintain the Essential Functions may result in a recommendation for dismissal from the program. The Essential Functions are fully described at the end of this document.
Certification and Licensure

New York Medical College makes no guarantees regarding an individual’s ability to obtain licensure, certification, or employment.

ASHA Certification

Licensure

Students who complete the Master of Science degree in Speech-Language Pathology will also have completed academic and clinical requirements required for licensure in Speech-Language Pathology from the New York State Office of the Professions Division of Professional Licensing Services. Information and instructions for New York licensure are available online: [http://www.op.nysed.gov/prof/slpa/](http://www.op.nysed.gov/prof/slpa/)

Students who plan to seek licensure in another state should consult the licensing agency in that state for further information. ASHA maintains links for state contacts and licensing requirements at: [http://www.asha.org/advocacy/state/](http://www.asha.org/advocacy/state/)

Teacher Certification

The academic and clinical requirements of the speech-language pathology program meet the requirements for the Initial Certification as a Teacher of Students with Speech and Language Disabilities (TSSLD) in New York. In addition to the academic and clinical training components of the program, graduates must complete the following:

- Workshops – Child Abuse Identification, School Violence Prevention, Autism – online workshops;
- Training – Dignity for All Students Act (DASA) – on campus training;
- Test – Educating All Students (EAS) – students arrange completion at an approved testing site.

Fingerprinting

Additional information is available at: [http://www.highered.nysed.gov/tcert/certificate/rightpathway.html#nine](http://www.highered.nysed.gov/tcert/certificate/rightpathway.html#nine)

Students who plan to seek teacher certification in another state should consult the state education department in that state for further information.
The School of Health Sciences and Practice at New York Medical College invites applications from individuals interested in entering the professional field of speech-language pathology. Applications are accepted from those holding a Bachelor’s degree. The staff in the Office of Admissions in the School of Health Sciences and Practice is available to provide information and answers questions during the admission and financial aid process. They offer ongoing support throughout the application process.

Michelle Novotny  
Associate Dean for Enrollment Management,  
School of Health Sciences and Practice

The Department of Speech-Language Pathology at New York Medical College participates in the Communication Sciences and Disorders (CSD) Centralized Application Service (CSDCAS). All applicants are required to apply online through [https://CSDCAS.liaisoncas.com/applicant-ux/#/login](https://CSDCAS.liaisoncas.com/applicant-ux/#/login). It is important that your application materials submitted to CSDCAS at least 3-4 weeks prior to the application deadline. CSDCAS needs at least that much time to process your application.

Items to submit directly to CSDCAS:
1) Application with application fee
2) Official transcripts for all colleges/universities attended  
   Requirement for international applicants – foreign transcript evaluation
3) Prerequisites
4) GRE test scores  (Program code: 6973)  
   (Additional requirement for international applicants – TOEFL/ITLTS scores)
5) Personal statement (details below)
6) Three (3) letters of recommendation (at least one must be from a professor)

The application review process begins immediately after the application deadline. Decisions are made after all applications are reviewed.
A department Admissions Committee is charged with careful review of all completed applications. Applications are initially reviewed by a member of the faculty in the Department of Speech-Language Pathology. Applicants who receive a favorable rating from the faculty review are invited to campus for an additional set of activities. Recommendations are made by the department’s Admissions Committee comprised of department academic and clinical faculty.

**Degree and Transcripts**

Applicants must have a Bachelor's degree from a regionally accredited U.S. college or university. International applicants must meet the international equivalent.

**U.S. Transcripts**: Applicants must submit transcripts from all undergraduate institutions attended; transcripts for any post-graduate credit hours must be submitted, as well.

**Foreign Transcripts**: International applicants who did not receive an undergraduate or graduate degree in the United States must submit an evaluation of their degree transcript conducted by World Education Services (WES). This credential evaluation must document minimum equivalency of a U.S. baccalaureate. The transcript evaluation should include a conversion to U.S. credit hours and grades.

**Official transcripts for all colleges/universities attended must be uploaded to CSDCAS.**

**Prerequisite Courses**

There are two sets of prerequisite course requirements the must be completed prior to beginning the program.

**ASHA Prerequisites Requirements**

- **Biological Science** - at least one course - acceptable courses in biological sciences should emphasize a content area related to human or animal sciences (e.g., biology, human anatomy and physiology, neuroanatomy and neurophysiology, human genetics, veterinary science).
- **Physical Sciences** - at least one course - acceptable courses in physics or chemistry. Courses in biological and physical sciences specifically related to communication sciences and disorders (CSD) may not be applied.
- **Statistics** - at least one course - research methodology courses in communication sciences and disorders may not be used to satisfy the statistics requirement.
- **Social Sciences** - at least two courses - acceptable course include psychology, sociology, anthropology, or public health.
Department of Speech-Language Pathology Prerequisite Requirements

One course in phonetics with phonetics transcription component.
One course in anatomy and physiology of speech or speech-hearing.
One course in child development/child language development.
Courses devoted to the teaching of any of the above topics (teacher education courses) may not be used to satisfy these requirements.

Prerequisite courses do not need to be completed in order to apply to the program; however, all prerequisite courses must be satisfactorily completed prior to starting the program.

Applicants can contact the Office of Admissions with specific questions about whether certain courses meet prerequisite requirements.

Tests

GRE
The general test is required for admission. Score reports can be obtained by contacting Educational Testing Service (See www.ets.org). The CSDCAS program code for NYMC Speech-Language Pathology program is 6973.

Applicants are encouraged to take the GRE at least 2 months before the application deadline to ensure that scores are available during the application review process. Applications are not complete without the official GRE scores and will delay review.

An official GRE score report must be uploaded to CSDCAS.

TOEFL/ IELTS
A career in speech-language pathology requires a high level of facility with the English language. In order to ensure success, TOEFL or IELTS scores are required for the following students:
  Those whose first language is not English;
  Those from countries where English is one of the official languages, but not necessarily the first language of the majority of the population;
  Those from countries where English is not a native language, although available as a language of instruction at all or some levels of schooling;
  Those whose transcripts are not in English or are from schools in non-English speaking countries.

The TOEFL minimum cumulative score is 96 (IBT: no score lower than 24 in each of the four (4) sections.

The IELTS minimum score is Band 7.

For more information on these tests, contact Educational Testing Service (http://www.toefl.org) TOEFL, PO Box 6151, Princeton, NJ 08541-6000; telephone (609) 921-9000; email: toefl@ets.org.
**Personal Statement**

Applicants are asked to write a personal statement of approximately 750 words that address the following:

Discuss personal characteristics and experiences that led to your decision to pursue a graduate degree in speech-language pathology. Specifically address the ways in which the medically-based speech-language pathology program at New York Medical College can help you achieve your career goals.

*The Personal Statement must be uploaded to CSDCAS.*

**Letters of Recommendation**

Three recommendation letters are required for admission. At least one recommendation must be from a faculty member from whom you have taken at least one course. No recommendations from on-line course instructors are accepted.

*Letters of Recommendation must be uploaded to CSDCAS.*

**Essential Functions**

**Overview**

The Department of Speech-Language Pathology at New York Medical College prepares skilled clinicians who are committed to evidence-based and ethical practice in the delivery of speech-language and swallowing services in healthcare facilities and other professional settings. The curriculum is focused on an integration of research and clinical applications across academic and clinical coursework. The department supports and initiates the development of interprofessional practice skills within the college and in community-based settings. The department promotes clinical excellence in the community through service activities and continuing professional education opportunities. The department affirms its commitment that graduates meet the standards for clinical certification through the American Speech-Language-Hearing Association. Toward this end, graduate students must demonstrate essential functions for the education and practice of speech-language pathology.

“In order to acquire the knowledge and skills requisite to the practice of speech-language pathology to function in a broad variety of clinical situations, and to render a wide spectrum of patient care, individuals must have skills and attributes in five areas: communication, motor, intellectual-cognitive, sensory-observational, and behavioral-social. These skills enable a student to meet graduate and professional requirements as measured by state licensure and national certification. Many of these skills can be learned and developed during the course of the graduate program through coursework and clinical experiences. The starred items (*), however, are skills that are most inherent and should be present when a student begins the program.”

*Source: Council of Academic Programs in Communication Sciences and Disorders, 2007*
Essential Function Domain 1 - Communication

A student must possess adequate communication skills to:

- Communicate proficiently in both spoken and written English language.
- Possess reading and writing skills sufficient to meet curricular and clinical demands.*
- Perceive and demonstrate appropriate non-verbal communication for culture and context.*
- Modify communication style to meet the communication needs of clients, caregivers, and other persons served.*
- Communicate professionally and intelligibly with patients, colleagues, other healthcare professionals, and community or professional groups.
- Communicate professionally, effectively, and legibly on patient documentation, reports, and scholarly papers required as a part of course work and professional practice.
- Convey information accurately with relevance and cultural sensitivity.

Essential Function Domain 2 - Motor

A student must possess adequate motor skills to:

- Sustain necessary physical activity level in required classroom and clinical activities.*
- Respond quickly to provide a safe environment for clients in emergency situations including fire, choking, etc.*
- Access transportation to clinical and academic placements.*
- Participate in classroom and clinical activities for the defined workday.*
- Efficiently manipulate testing and treatment environment and materials without violation of testing protocols and with best therapeutic practice.
- Manipulate patient-utilized equipment (e.g., durable medical equipment to include AAC devices, hearing aids, etc.) in a safe manner.
- Access technology for clinical management (i.e., billing, charting, therapy programs, etc.).

Essential Function Domain 3 – Intellectual / Cognitive

A student must possess adequate intellectual and cognitive skills to:

- Comprehend, retain, integrate, synthesize, infer, evaluate and apply written and verbal information sufficient to meet curricular and clinical demands.*
- Identify significant findings from history, evaluation, and data to formulate a diagnosis and develop a treatment plan.
- Solve problems, reason, and make sound clinical judgements in patient assessment, diagnostic and therapeutic plan and implementation.
- Self-evaluate, identify, and communicate limits of one’s own knowledge and skill to appropriate professional level and be able to identify and utilize resources in order to increase knowledge.
Utilize detailed written and verbal instruction in order to make unique and independent decisions.

**Essential Function Domain 4 – Sensory / Observational**

A student must possess adequate sensory skills of vision, hearing, tactile and smell to:

- Visually and auditorily identify normal and disordered fluency, articulation, voice, resonance, respiration characteristics, oral and written language in the area of semantics, pragmatics, syntax, morphology and phonology, hearing, swallowing, cognition, and social interaction related to communication.
- Identify the need for alternative modalities of communication.
- Visualize and discriminate anatomic structures and imaging findings (e.g., MBSS, FEES, etc.).
- Discriminate text, numbers, tables, and graphs associated with diagnostic instruments and tests
- Recognize when a client’s family does or does not understand the clinician’s written and/or verbal communication.

**Essential Function Domain 5 – Behavioral / Social**

A student must possess adequate behavioral and social attributes to:

- Display mature empathetic and effective professional relationships by exhibiting compassion, integrity, and concern for others.*
- Recognize and show respect for individuals with disabilities and for individuals of different ages, genders, races, religions, sexual orientations, and cultural and socioeconomic backgrounds.*
- Conduct oneself in an ethical and legal manner, upholding the ASHA Code of Ethics and university and federal privacy policies.*
- Maintain general good physical and mental health and self-care in order not to jeopardize the health and safety of self and others in the academic and clinical setting.*
- Adapt to changing and demanding environments (which includes maintaining both professional demeanor and emotional health).
- Manage the use of time effectively to complete professional and technical tasks within realistic time constraints.
- Accept appropriate suggestions and constructive criticism and respond by modification of behaviors.
- Dress appropriately and professionally.
During orientation, students are asked to attest that they have read and understand the essential functions of a speech language pathologist.

**Student Financial Planning**

The Office of Student Financial Planning at New York Medical College offers students a financial program that assists them with their decision making before, during and even after they have graduated from New York Medical College. The Office strives to help students find and understand the numerous financial resources available and how these resources will impact their lives. Our goal is to sharpen your financial literacy, avoid costly mistakes and help you make sound and educated financial choices.

The Financial Aid deadline occurs in late April for the new academic year. All required financial aid steps and required forms must be completed and submitted to the Office of Student Financial Planning by this date. These steps include completing a Free Application for Federal Student Aid (FAFSA). If borrowing federal student loans, a promissory note must be filed. Any additional required documents/online processes required by the financial aid office must be submitted. More detailed information is available on the NYMC website at: [http://www.nymc.edu/current-students/office-of-student-financial-planning/apply-for-financial-aid/school-of-health-sciences-and-practice/](http://www.nymc.edu/current-students/office-of-student-financial-planning/apply-for-financial-aid/school-of-health-sciences-and-practice/)
Section 2  
College, School and Program Policies and Procedures

College Policies and Procedures

Privacy Rights of Students/Family Educational Rights and Privacy Act (FERPA)

It is the policy of New York Medical College to protect information contained in students' records from unauthorized disclosures and to comply in all respects with the provisions of the Family Educational Rights and Privacy Act of 1974 and its associated regulations. Students should be aware of the College’s policy on the rights to privacy related to students provided here and available at: http://www.nymc.edu/media/schools-and-colleges/nymc/pdf/current-students-academic-policies-/FERPA.pdf

Confidentiality of Student Education Records

The Family Educational Rights and Privacy Act of 1974 (FERPA), with which New York Medical College complies, was enacted to protect the privacy of education records, to establish the right of students to review their education records, and to provide guidelines for correction of inaccurate or misleading statements. “Education records,” as defined in the law, include records, files, documents, or other materials in hard copy or in electronic format, maintained by NYMC or a party acting on its behalf, which contain information directly related to a student. There are a number of types of records that are specifically excluded from the scope of the Act, such as records maintained personally by faculty or staff that are not available to others, medical records maintained by the university’s health service, and employment records. FERPA affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student’s education records within a reasonable period of time, but not more than 45 days after the College receives a request for access. Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The College official will make arrangements for access and notify the student of the time and place the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the students of the correct official to whom the request should be addressed. A student will ordinarily not be provided with copies of any part of his record other than his transcript, unless the inability to obtain copies would effectively prevent him from exercising his right to inspect and review his education records.

2. The right to request an amendment to the student’s education records that the student believes is inaccurate, misleading, or in violation of the student’s rights of privacy. Students may ask the College to amend a record that they believe is inaccurate. They should write the College official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate. If the College decides not to amend the record as requested by
the student, the College will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to provide written consent before the College discloses personally identifiable information contained in the student’s education records. FERPA authorizes disclosure without consent in specific circumstances including:

a. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Requests for access to student educational records are vetted by the custodian of the record and the employee’s supervisor (where appropriate), in consultation with the Registrar.

b. A second exception that permits disclosure without consent is disclosure of “directory information.” NYMC has established the following student information as public or directory information, which may be disclosed by the institution at its discretion:

- Name
- Address
- E-mail address
- Telephone number
- Date and Place of birth
- School or program attended
- Major field of study
- Photographic, video, or electronic images
- Classification (year level)
- Dates of enrollment
- Full- or part-time enrollment status
- Expected year of graduation
- Degrees, honors and awards conferred and their dates
- Most recent educational agency or school attended
- Residency or other post-completion placements
- User ID or other unique personal identifier used to communicate in electronic systems but only if the identifier cannot be used to gain access to education records
- Annual yearbook and graduation programs
- Membership in registered student clubs and organizations
Students may request that NYMC withhold release of their directory information by notifying the Registrar's Office in writing. Please be advised that such a request will make this information unavailable to prospective employers, licensing boards, insurance companies, and others to whom you may want this information known or verified. Thus it is recommended that students carefully consider whether personal privacy concerns outweigh the potential inconvenience of having directory information withheld.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by NYMC to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington, DC 20202-4605.

Confidentiality of Student Health Records (HIPAA)
NYMC is committed to protecting the privacy and security of personal health information concerning our employees and students. As such, NYMC is fully compliant with the New York State Health Insurance Portability and Accountability Act (HIPAA). Students should be aware of the College’s policy on the rights to privacy related to student health and mental health information provided here and available at:
https://www.omh.ny.gov/omhweb/hipaa/phi_protection.html

HIPAA Privacy Rules for the Protection of Health and Mental Health Information
(Note: The information provided below is a summary and intended for general informational purposes. Mental health providers and other covered entities should not rely on this summary as a source of legal information or advice and should consult with their own attorney or HIPAA Privacy Officer for specific guidance.)

Introduction:
This document provides guidance about key elements of the requirements of the Health Insurance Portability and Accountability Act (HIPAA), federal legislation passed in 1996 which requires providers of health care (including mental health care) to ensure the privacy of patient records and health information. HIPAA required the federal Department of Health and Human Services (HHS) to develop regulations to implement these privacy requirements, called the Privacy Rule, which became effective on April 14, 2003. State statutes which provide more stringent protections of health care privacy remain in effect even after HIPAA, and therefore this document includes a few relevant references to requirements in New York State’s mental health confidentiality statute (section 33.13 of the Mental Hygiene Law).

General:
The HIPAA Privacy Rule (45 CFR Parts 160 and 164) provides the first comprehensive Federal protection for the privacy of health and mental health information. The Rule is intended to provide strong legal protections to ensure the privacy of individual health information, without interfering with patient access to treatment, health care operations, or quality of care. The Privacy Rule applies to “covered entities” which generally includes health plans and health care providers who transmit health information in electronic form. Covered entities include almost all health and mental health care providers, whether they are outpatient, residential or
inpatient providers, as well as other persons or organizations that bill or are paid for health care.

Basic Principles of the Privacy Rule:

The Privacy Rule protects all “protected health information” (PHI), including individually identifiable health or mental health information held or transmitted by a covered entity in any format, including electronic, paper, or oral statements.

A major purpose of the Privacy Rule is to define and limit the circumstances under which an individual's PHI may be used or disclosed by covered entities. Generally, a covered entity may not use or disclose PHI to others, except:

as the Privacy Rule permits or requires; or

as authorized by the person (or personal representative) who is the subject of the health information. A HIPAA-compliant Authorization must contain specific information required by the Privacy Rules.

A covered entity must provide individuals (or their personal representatives) with access to their own PHI (unless there are permitted grounds for denial), and must provide an accounting of the disclosures of their PHI to others, upon their request.

The Privacy Rule supersedes State law, but State laws which provide greater privacy protections or which give individuals greater access to their own PHI remain in effect.

(Note: One must consult not only HIPAA but also other relevant federal privacy laws (such as regulations pertaining to Medicaid and federally funded substance abuse treatment programs), as well as State privacy laws (including the Mental Hygiene Law- section 33.13, the Public Health Law, the Education Law licensing provisions, and the Civil Practice Laws and Rules), to determine whether a disclosure of medical information is permissible in a given circumstance.)

Permitted Uses or Disclosures of PHI Without Authorization:

Extensive provisions of the Privacy Rule describe circumstances under which covered entities are permitted to use or disclose PHI, without the authorization of the individual who is the subject of the protected information. These purposes include, but are not limited to, the following:

A covered entity may disclose PHI to the individual who is the subject of the information.

A covered entity may use and disclose protected health information for its own “treatment, payment, and health care operations.”
Treatment is the provision, coordination, or management of health care and related services for an individual, including consultation between providers and referral of an individual to another provider for health care.

Payment includes activities of a health care provider to obtain payment or to receive reimbursement for the provision of health care to an individual.

Health care operations include functions such as: (a) quality assessment and improvement; (b) competency assessment, including performance evaluation, credentialing, and accreditation; (c) medical reviews, audits, or legal services; (d) specified insurance functions; and (e) business planning, management, and general administration.

Permission may be obtained from the individual who is the subject of the information or by circumstances that clearly indicate an individual with capacity has the opportunity to object to the disclosure but does not express an objection. Providers may also rely on an individual's informal permission to disclose health information to an individual's family, relatives, close personal friends, or to other persons identified by the individual, limited to information directly related to such person's involvement.

When an individual is incapacitated or in an emergency, providers sometimes may use or disclose PHI, without authorization, when it is in the best interests of the individual, as determined by health care provider in the exercise of clinical judgment. The PHI that may be disclosed under this provision includes the patient's name, location in a health care provider's facility, and limited and general information regarding the person's condition.

Providers may use and disclose PHI without a person's authorization when the use or disclosure of PHI is required by law, including State statute or court order.

Providers generally may disclose PHI to State and Federal public health authorities to prevent or control disease, injury, or disability, and to government authorities authorized to receive reports of child abuse and neglect.

Providers may disclose PHI to appropriate government authorities in limited circumstances regarding victims of abuse, neglect, or domestic violence.

Providers may disclose PHI to health oversight agencies, (e.g., the government agency which licenses the provider), for legally authorized health oversight activities, such as audits and investigations.

PHI may be disclosed in a judicial or administrative proceeding if the request is pursuant to a court order, subpoena, or other lawful process (note that "more stringent" NYS Mental Hygiene law requires a court order for disclosure of mental health information in these circumstances). Providers may generally disclose PHI to law enforcement when:
Required by law, or pursuant to a court order, subpoena, or an “administrative request,” such as a subpoena or summons (Note: the "more stringent" NYS Mental Hygiene Law section 33.13 requires a court order for disclosure of mental health information in these circumstances). The information sought must be relevant and limited to the inquiry.

To identify or locate a suspect, fugitive, material witness or missing person (Note: under Mental Hygiene Law section 33.13 this information is limited to “identifying data concerning hospitalization”).

In response to a law enforcement request for information about a victim of a crime (Note: under Mental Hygiene Law section 33.13 this information is limited to “identifying data concerning hospitalization”).

To alert law enforcement about criminal conduct on the premises of a HIPAA covered entity. Providers may disclose PHI that they believe necessary to prevent or lessen a serious and imminent physical threat to a person or the public, when such disclosure is made to someone they believe can prevent or lessen the threat (including the target of the threat). An authorization is not required to use or disclose PHI to certain government programs providing public benefits or for enrollment in government benefit programs if the sharing of information is required or expressly authorized by statute or regulation, or other limited circumstances

“Minimum Necessary” Rule:
A covered entity must make reasonable efforts to use, request, or disclose to others only the minimum amount of PHI which is needed to accomplish the intended purpose of the use, request or disclosure. When the minimum necessary standard applies, a covered entity may not use, disclose, or request a person's entire medical record, unless it can specifically justify that the entire record is reasonably needed.

The minimum necessary standard does not apply under the following circumstances:

- disclosure to a health care provider for treatment;
- disclosure to an individual (or personal representative) who is the subject of the information;
- use or disclosure made pursuant to an Authorization by the person (or personal representative);
- use or disclosure that is required by law; or
- disclosure to HHS for investigation, compliance review or enforcement.

Penalties for Violation of HIPAA:

- **Civil monetary penalties**: HHS may impose civil money penalties on a covered entity of $100 per failure to comply with a Privacy Rule requirement- not to exceed $25,000 per calendar year for multiple violations of the same Privacy Rule requirement. Generally, HHS may not impose civil monetary penalties when a violation is due to
reasonable cause, there was no “willful neglect,” and the covered entity corrected the violation within 30 days of when it knew (or should have known) of the violation.

- **Criminal Penalties.** A person who knowingly obtains or discloses individually identifiable health information in violation of HIPAA could face a fine of $50,000 and imprisonment for up to one year. If the wrongful conduct involves “false pretenses” the criminal penalties could increase up to a fine of $100,000 and up to five years imprisonment. A fine of up to $250,000 and up to ten years imprisonment could be imposed if the wrongful conduct involves the intent to sell, transfer, or use individually identifiable health information “for commercial advantage, personal gain, or malicious harm.”

- To view the entire Privacy Rule, or for other information about how it applies, visit the website of the HHS, Office of Civil Rights at: [http://www.hhs.gov/ocr/hipaa/](http://www.hhs.gov/ocr/hipaa/).

**New York Medical College Record Retention Policy**

The purpose of this policy is to ensure the integrity and security of all documents and records created, received or maintained in the course of institutional business, protect the interests of faculty, employees, students and of the College, facilitate appropriate access to such documents and records, preserve the confidentiality of such records, as applicable, reduce the cost of record maintenance and to inform all faculty, employees and administrators of the New York Medical College of the standards, requirements and responsibilities for the management, retention and disposition of all records of the College. In compliance with the College’s record retention policy, academic records are maintained for 4 years after graduation or date of last attendance for admitted students. Student application records are maintained for 4 years for those not admitted to a program in the School of Health Sciences and Practice. The full policy is available in **Appendix A**.

Enrolled students have access to their academic and clinical records at any time during their enrollment in the program. Written requests can be made to academic advisor or department chair.

Upon graduation, the university’s Registrar’s Office maintains a permanent record of student transcripts and clinical clock hours.

**Satisfactory Academic Progress Policy**

Satisfactory Academic Progress ("SAP") ensures students are able to complete their academic program in a timely manner while achieving and maintaining compliance with minimum academic standards. Federal regulations mandate that all students are required to conform to SAP standards as they work towards a degree in order for them to qualify to receive financial assistance through all Touro College and University System ("Touro") eligible Title IV federal financial aid programs, including New York Medical College ("NYMC"). Conformance to Touro’s SAP policy ensures students complete their academic program in a timely manner while
achieving and maintaining compliance with minimum academic standards. The full policy is available in Appendix B.

**New York Medical College Policy on Students with Disabilities**

The purpose of this policy is to reaffirm New York Medical College’s commitment to comply with the laws regarding equal opportunity for all qualified students with disabilities who have identified themselves to the College in a timely manner as individuals with a disability in all aspects of campus life. The Policy on Student with Disabilities is available in Appendix C.

NYMC fully supports students personally with a breadth of services to address any goals, needs, special concerns or questions they may have. Whether of an academic, emotional, physical, social, spiritual or financial nature, we offer compassionate staff, valuable resources and supportive advice and counseling. Any student requiring accommodations due to a diagnosed disability or illness should make an appointment with Disability Services to get their requested accommodations approved.

The Application for Accommodation for is available in Appendix D.

**Statement of Non-Discrimination Policy**

It is the policy of the College that no person shall be denied admission to any education program or activity on the basis of any legally prohibited discrimination involving, but not limited to, such factors as race, religion, sex, color, national or ethnic origin, creed, age, disability, sexual orientation, gender, pregnancy, veteran status or any other any status or condition protected by applicable federal, state, or local law. Under Title IX, any educational institution receiving Federal financial assistance must notify the school community of its nondiscrimination policy and the name and contact information for its Title IX coordinator, and adopt and publish grievance procedures providing for the prompt and equitable resolution of sex discrimination complaints. Every member of the College community should also be aware that it is the policy of the College to prohibit all forms of sexual and gender-based discrimination and misconduct, that such behavior violates both law and this Policy, that the College shall respond promptly and effectively to reports of violations of this Policy and shall take appropriate action to prevent, to correct, and when necessary, to discipline behavior that violates this Policy.

The College is an Equal Educational and Employment Opportunity Institution. It is the policy of the College to provide equality of educational and employment opportunity for all persons regardless of as race, religion, sex, color, national or ethnic origin, creed, age, disability, sexual orientation, gender, pregnancy, veteran status or any other any status or condition protected by applicable federal, state, or local law - except where sex, age, or ability represent bona fide educational or employment qualifications. The College is committed to recruiting, employing, and promoting individuals based on job-related qualifications and to engage in good-faith efforts to achieve employment parity when necessary.
All policies of the College regarding admissions, employment and educational programs and activities are established and administered in conformity with applicable federal and state laws specifically including Title IX, Age Discrimination Act of 1975, Americans with Disabilities Act and with Section 504 of the Rehabilitation Act of 1973, as amended, and regulations thereunder prohibiting practices or policies in admissions, education programs, or employment that are in any way discriminatory on the basis of sex, age and disability, respectively. This policy can be viewed in Appendix E.

**Sexual Harassment Policy**

NYMC is committed to providing all students and employees an environment free from conduct constituting harassment and to discipline any student or employee who violates this policy. You can view the College’s policy located in Appendix F.

**Hate/Biased-Related Crime Prevention Statement**

Under the New York State Hate Crimes Prevention Act of 2000, the College is required to inform students about the provisions of the law and how hate crimes (also known as bias-related crimes) can be prevented on campus. The new law helps reinforce the message that hate crimes will not be tolerated. The College’s policy can be reviewed in Appendix G.

**Policy on Sexual and Gender-Based Misconduct and Policy for Alcohol and Drug Use Amnesty in Sexual Violence Cases**

This policy and its procedures is intended to provide for the process and procedures for the prompt and equitable resolution of complaints of sexual and gender-based misconduct and to reaffirm the commitment of NYMC to ensure a safe and non-discriminatory educational environment in accordance with Title IX, the Violence Against Women Act, Article 129-B of the New York State Education Law, Jeanne Clery Disclosure of Campus Security Police and Campus Crime Statistics Act, and other applicable federal and state laws. You can view the College’s policy in Appendix H.

**Policy on Victim and Survivors Student Bill of Rights, Reporting and Individual Rights and Resources Available Regarding Alleged Sexual Violence Incidents**

I. Purpose

The purpose of this policy is to affirm the commitment of New York Medical College ("College") to comply with applicable federal, state and local laws and regulations including with Article 129-B of the New York State Education Law.

II. Policy

It is the policy of the College to incorporate the Victim and Survivors Student Bill of Rights ("Student Bill of Rights") as set forth below as part of the College's code of conduct, to distribute the Student Bill of Rights annually to the College's students, to post it on the College's website and in the College's Student Housing facilities and other College's building on its campus and include links or information to file a report and seek a response. It is also the policy of the College to advise reporting individuals of their rights and to provide information on resources available to them as described in this Policy.
III. Student Bill of Rights
All students of the College have the following rights regarding alleged sexual violence incidents:
• Make a report to local law enforcement and/or state police;
• Have disclosures of domestic violence, dating violence, stalking, and sexual assault treated seriously;
• Make a decision about whether or not to disclose a crime or incident and participate in the judicial or conduct process and/or criminal justice process free from pressure by the College;
• Participate in a process that is fair, impartial and provides adequate notice and a meaningful opportunity to be heard;
• Be treated with dignity and to receive from College courteous, fair and respectful health care and counselling services, where available;
• Be free from any suggestion that the reporting individual is at fault when these crimes and violations are committed, or should have acted in a different manner to avoid such a crimes or violations;
• Describe the incident to as few College representatives as practicable and not be required to unnecessarily repeat a description of the incident;
• Be protected from retaliation by the College, any student, the accused and/or the respondent, and/or their friends, family and acquaintances within the jurisdiction of the College;
• Access to at least on level of appeal of a determination;
• Be accompanied by an advisor of choice who may assist and advise a reporting individual, accused, or respondent through the judicial or conduct process including during all meetings related to such process;
• Exercise civil rights and practice of religion without interference by the investigative, criminal justice, or judicial or conduct process of the College.

IV. Response to Reports—Reporting Individual Rights The College shall ensure that all reporting individuals are advised of their right to:
• Notify College’s Campus Security, local law enforcement and/or state police;
• Have emergency access to a Title IX Coordinator or other duly authorized representative of the College trained in interviewing victims of sexual assault who shall be available upon the first instance of disclosure by a reporting individual to provide information regarding options to proceed, and, where applicable, the importance of preserving evidence and obtaining a sexual assault forensic examination as soon as possible, and detailing that the criminal justice process utilizes different standards of proof of evidence and that any questions about whether a specific incident violated the penal law should be addressed to law enforcement or to the District Attorney. Such College representative shall also explain whether he or she is authorized to offer the reporting individual confidentiality or privacy, and shall inform the reporting individual of other reporting options;
• Disclose confidentially the incident to representatives of the College, who may offer confidentiality pursuant to applicable laws and can assist in obtaining services for reporting individuals;
• Disclose confidentially the incident and obtain services from the state or local government;
• Disclose the incident to College representatives who can offer privacy or confidentiality, as appropriate, and can assist in obtaining resources for reporting individuals;
• File a report of sexual assault, domestic violence, dating violence, and/or stalking and the right to consult with a Title IX Coordinator or other duly authorized representative of the College for information and assistance. Reports shall be investigated in accordance with College policy and a reporting individual's identity shall remain private at all times if said reporting individual wishes to maintain privacy;
• Disclose, if the accused is an employee of the College, the incident to the College's Human Resources Authority or the right to request that a confidential or private employee assist in reporting to the appropriate Human Resources Authority of the College;
• Receive assistance from appropriate College representatives in initiating legal proceedings in Family Court or Civil Court; and,
• Withdraw a complaint or involvement from the College's process at any time.

The College shall ensure that reporting individuals are informed that, if any individual discloses information through a public awareness event such as candlelight vigils, protests, or other public event, the College is not obligated to begin an investigation based on such information. The College may use such information provided at such an event to inform its efforts for additional education and prevention efforts.

In addition to the above, the College shall ensure that, at a minimum, at the first instance of disclosure by a reporting individual to a Title IX Coordinator or other authorized College representative, the following information is presented to the reporting individual:

"YOU HAVE THE RIGHT TO MAKE A REPORT TO THE COLLEGE'S CAMPUS SECURITY, LOCAL LAW ENFORCEMENT, AND/OR STATE POLICE OR CHOOSE NOT TO REPORT; TO REPORT THE INCIDENT TO THE COLLEGE; TO BE PROTECTED BY THE COLLEGE FROM RETALIATION FOR REPORTING AN INCIDENT; AND TO RECEIVE ASSISTANCE AND RESOURCES FROM THE COLLEGE."

You may view the entire policy in Appendix I.
New York Medical College Student Code of Academic Integrity and Professionalism

Academic integrity is essential in any educational endeavor and it is expected at all times from both students and faculty. By accepting admission to New York Medical College, students commit to the ideals, ethics and conduct of their profession and of the institution. The Student Code of Academic Integrity and Professionalism outlines responsibilities and expected behaviors. Suspected violations of the Student Code of Academic Integrity and Professionalism are investigated in accordance with established Procedures as well as the guidelines of the relevant academic program and may lead to dismissal from the school. View the Student Code of Academic Integrity and Professionalism in Appendix J.

View the Procedures for Addressing Violations of the Student Code of Academic Integrity and Professionalism in Appendix K.

Students in the Department of Speech-Language Pathology are required to sign a document to attest that they have read this policy and will abide by its principles. The policy is available in Appendix H.

Policy on Professional Conduct in the Student-Student and Teacher-Student Relationship

This policy outlines guidelines for the proper behavior of students and teachers within the College towards each other. You can find this policy in Appendix L.

Drug-Free School and Campus Policy

New York Medical College recognizes its special responsibility to prevent the illicit use of drug or alcohol on College premises by faculty, students and employees. The effects of drug or alcohol dependency compromise work and academic performance as well as health care. This, therefore, is to advise that the College, in consultation with faculty, the Deans’ offices and appropriate administration, has developed and adopted a Drug prevention Program which reaffirms our policy regarding the use of drugs and alcohol and provides specific information in compliance with the Drug-Free Schools and Communities Act Amendments of 1989. You may view the policy in Appendix M.

Smoke-Free Policy Statement

It is the policy of New York Medical College to maintain a smoke-free environment at all of its owned and leased premises, including the inside and outside areas at Grasslands housing and dormitories, the outdoor enclosed work areas as provided herein, outdoor events sponsored by the College and in all vehicles owned and operated by the College. You can view the College’s policy in Appendix N.

Policy for On Campus Student Sponsored Events Where Alcohol is to be Served

Students are expected to know and follow all applicable state and federal laws and College policies and procedures. All on-campus student sponsored events where alcohol is served requires the prior approval of the Office of Student Affairs. The complete policy is available in Appendix O.
**E-mail Usage and E-mail Security**

It is the policy of New York Medical College to:

1. Provide e-mail access to the users of the College network.
2. Prevent users from sending harassing, obscene or threatening e-mail messages to other users.
3. Secure e-mail from unauthorized access.
4. Provide users a method to post advertisements, commercial notices or inquiries such as “Items For Sale” or “Apartments for Rent” in public folders.

**Procedures**

A. General

1. E-mail users are prohibited from:
   a. Engaging in forgery or in attempts to read mail of other users.
   b. Sending harassing, obscene or threatening e-mail messages to other users.
   c. Sending copyrighted materials via e-mail not within fair use guidelines or without prior permission from author or publisher.
   d. Deleting or copying files (excluding the X: drive) on the College network.

2. Advertisements such as “Items For Sale” MAY NOT BE sent to any public group. These items may only be posted on Distribution Group – ADVERTISEMENTS.

3. All inquiries or notices, including commercial notices, such as: “Housing Wanted, “Jokes and Humor”, “Ride Sharing”, “Lost and Found”, etc. MAY NOT BE sent to any public group. These items must be posted in the Distribution Group – ANNOUNCEMENTS.

4. The users are advised to change their network password frequently and not to disclose their network password to others to protect their mailboxes from unauthorized access.

5. Users sending confidential messages via e-mail or Internet do so at their own risk since mail either way should not be considered secure.

6. Users should check their e-mail daily and delete unwanted messages since they take up disk space.

7. The e-mail system will automatically delete all messages, both read and unread, that are over 90 days old.

8. Users wanting to keep their messages for future reference should save their messages to their local hard disk drive, other back-up media or their X: drive. Note: The space on X: drive is limited to 100MB (megabytes) per user.

B. Statement of enforcement

1. Noncompliance with this Policy will result in the following actions:
   a. First Offense: User will be warned by Information Services Department to abide by the College’s policies and procedures.
   b. Second Offense: User’s access to e-mail will be disabled for a period of 1 week.
   c. Third Offense: User’s access to e-mail will be disabled for a period of 1 month. d. Any Offense Thereafter: User’s access to the College network and e-mail will be disabled for a period of 1 year.
C. Exceptions

1. All exceptions to this Policy require a written authorization from the appropriate Dean or Vice President or designee and an approval from the Vice Provost, Administration and Finance.

Responsibility

A. Students and individuals employed or affiliated with New York Medical College who have access to the College network and e-mail are responsible to comply with the provisions of this policy.

B. Information Services Department staff is responsible to provide advice and guidance with respect to the interpretation and administration of this policy.

You can view this policy in Appendix P.

Name Change Policy

All currently enrolled students, male or female, will be granted the opportunity to change their names on college records when they produce evidence showing the name change is official. A certified copy of a court order or a marriage certificate or a dissolution decree reflecting the new name in full is the evidence required to support an official name change. Students are required to present documentation to the Office of the Registrar.

Policy on Filming, Videotaping, Photography, and Visual or Audio Recordings

It is the policy of New York Medical College to require advance written permission from the Office of Public Relations prior to the taking, publication or dissemination of any photograph, film, videotape or recording of NYMC buildings, facilitates, property, student, faculty or employee. No commercial filming, videotaping, photography, or visual or audio recording is permitted without the express written permission of the Office of Public Relations. Permission for still photography (still or digital) will be granted only for the personal use of students, parents, alumni, faculty, staff and trustees of the College. Photography, videotaping or recording authorized by the College which is intended for public affairs purposes will be coordinated with the Office of Public Relations and in accordance with College policies. Similar photography, videotaping or other recordings which is intended for educational purposes will be coordinated by the Office of Student Affairs for the School of Medicine or the appropriate Dean for the College’s other schools, in consultation with the College’s Office of Public Relations.

It is also the policy of New York Medical College to prohibit the taking, publication or dissemination of any photograph, film, videotape, digital image or other visual or audio recording of any cadaver donated or otherwise provided to or by the College. These human remains are to be treated with respect for their humanity and gratitude for their contribution to the advancement of medical education; to act otherwise, served no educational or scientific purpose.

Furthermore, it is the policy of the College to prohibit the taking, publication or dissemination or other use of any photography, videotape, digital image or other visual or audio recording of any patient without prior written consent of such patient. This protects the privacy of patients.
and is consistent with the Health Insurance Portability and Accountability Act (HIPAA) standards and codes.

The full policy is available in Appendix Q.

**Policy on Fund Raising by Students or Registered Student Organizations**

It is the policy of New York Medical College to require prior written authorization by the Office of Student Affairs or appropriate Dean prior to any student or registered student organization undertaking a fund raising event for the benefit of a not-for-profit registered Charitable Organization, association, or cause. Such event must also comply with all College policies and procedures. Nothing in this policy limits the ability of an individual to make personal contributions.

The full policy is available in Appendix R.

**Policy on Campus Parking**

It is the policy of the College to offer vehicle parking to employees, contractors, volunteers, and visitors at no cost and to students on a fee basis subject to the requirements of this policy. The College assumes no liability for loss or damage to any vehicle or its contents nor liability for damage to persons or property for any parked or moving vehicle on campus.

The full policy is available in Appendix S.

**School of Health Sciences and Practice Academic Policies and Procedures**

**Academic Regulations**

Academic regulations are located in the School of Health Sciences and Practice Catalog and are updated on an annual basis. In the catalog you will find information on the following topics.

The full text of this information is available in Appendix T.

- Enrollment Status
- Student Category Definitions
- Transcripts and Release of Information
- Student Grade Reports
- System of Grades
- Calculating Grade Point Average (GPA)
- Course Evaluations
- Incomplete Coursework (Policy available in Appendix U)
- Course Audit
- Student Withdrawal from a One or More Courses
- Withdrawal from the Program
- Repeating Courses
- Satisfactory Academic Progress
- Satisfactory Academic Progress and Good Academic Standing
Students are required to maintain **Satisfactory Academic Progress** (SAP) towards a degree at all times. View this policy in **Appendix V**.

**Transfer of Credits**

Leave of Absence, Maintenance of Matriculation and Reapplication (Policy available in **Appendix W**)  

**Change of Address**

Application to Graduate (Policy on Participation in Commencement Exercises is available in **Appendix X**)  

**Comprehensive Exam Requirements**

**Student Grievance Procedure**

A student who believes that he or she has not received equitable treatment by a member of the faculty may register a formal grievance. Grievances concerning course grades are appropriate only when the grade constitutes one of a number of factors that, together, may represent a pattern of inequitable treatment of the student. In all cases, course instructors have final responsibility for assigning course grades.

The grievance will typically be submitted in writing to the appropriate department chair. If the department chair is the source of the grievance, the student will submit the grievance to the vice dean. In either case, the written grievance must include the relevant facts surrounding the grievance and any supporting materials.

If the department chair is not the subject of the grievance, he or she will take steps necessary to investigate details of the grievance. If the department chair is the subject of the grievance, the vice dean will take all steps necessary to investigate details of the grievance. Such steps may include, but are not limited to, interviewing the student and faculty member, reviewing supporting documentation, and soliciting external, blinded review of materials by the individuals with appropriate expertise. Within 30 days of receipt of the written grievance, and after consideration of all available and relevant facts surrounding the grievance, the department chair or vice dean will propose a resolution to the grievance. The student may either accept the proffered resolution or appeal the decision.

View the Student Grievance Procedures in **Appendix Y**

**Complaints Related to Accreditation Standards**

Students with concerns related to any aspect of the program’s compliance with accreditation standards may at any time voice their concerns directly to the Council on Academic Accreditation (CAA). The complaint must clearly describe the specific nature of the complaint and the relationship of the complaint to the accreditation standards, and include supporting data for the complaint. The CAA requires that the complainant exhaust all institutional grievance and review mechanisms before submitting a complaint to the CAA. Submissions should be addressed to:
Guiding Principles of the Program

- Speech-Language Pathologists must acquire skills to fill an expanding role in health care settings.
- Academic and clinical training must be highly integrated.
- Foundations of clinical practice are rooted in medical, natural, and behavioral sciences.
- Faculty contributions to the knowledge base of the field enhance their effectiveness as educators.
- Speech-Language Pathologists must advocate for persons with communication disorders and their families.
- Speech-Language Pathologists must be prepared to address the health care needs of diverse populations.
- Continuing education is a professional responsibility.

Learning Outcomes

Each student will acquire knowledge and skills in sufficient breadth and depth to function as an effective, well-educated, and competent clinical speech-language pathologist.

1. **Professional Practice Competencies**
   
   Student will demonstrate the following attributes and abilities:
   
   - Accountability
   - Integrity
   - Effective Communication Skills
   - Clinical Reasoning
   - Evidence-Based Practice
   - Concern for Individuals Served
   - Cultural Competence
   - Professional Duty
   - Collaborative Practice

2. **Foundations of Speech-Language Pathology Practice**

   Student will demonstrate knowledge of the:
   - discipline of human communication sciences and disorders;
   - basic human communication and swallowing processes, including the appropriate
biological, neurological, acoustic, psychological, developmental, and linguistic and
cultural bases;
-ability to integrate information pertaining to normal and abnormal human
development across the life span;
-nature of communication and swallowing processes in
  articulation;
  fluency;
  voice and resonance, including respiration and phonation;
receptive and expressive language (phonology, morphology, syntax, semantics,
pragmatics, prelinguistic communication, and paralinguistic communication) in
  speaking, listening, reading, writing, and manual modalities;
  hearing, including the impact on speech and language;
swallowing (oral, pharyngeal, esophageal, and related functions, including oral
  function for feeding, orofacial myology);
cognitive aspects of communication (e.g., attention, memory, sequencing,
  problem solving, executive functioning);
social aspects of communication (e.g., behavioral and social skills affecting
  communication);
  augmentative and alternative communication.

--knowledge of the above elements includes each of the following:
etiology of the disorders or differences;
characteristics of the disorders or differences;
underlying anatomical and physiological characteristics of the disorder or
differences;
acoustic characteristics of the disorders or differences;
psychological characteristics of the disorders or differences;
developmental nature of disorders or differences;
linguistic characteristics of the disorders or differences;
cultural characteristics of the disorders or differences.

3. **Identification and Prevention of Speech, Language, and Swallowing Disorders and Differences**
Students will demonstrate knowledge of:
principles and methods of identification of communication and swallowing disorders and
differences;
principles and methods of prevention of communication and swallowing disorders.

4. **Evaluation of Speech, Language, and Swallowing Disorders and Differences**
Students will demonstrate knowledge and skills in assessment across the life span for
disorders and differences associated with:
  articulation;
  fluency;
  voice and resonance, including respiration and phonation;
receptive and expressive language (phonology, morphology, syntax, semantics,
pragmatics, prelinguistic communication, and paralinguistic communication) in speaking, listening, reading, writing, and manual modalities; hearing, including the impact on speech and language; swallowing (oral, pharyngeal, esophageal, and related functions, including oral function for feeding, orofacial myology); cognitive aspects of communication (e.g., attention, memory, sequencing, problem solving, executive functioning); social aspects of communication (e.g., behavioral and social skills affecting communication); augmentative and alternative communication.

5. **Intervention to Minimize the Effects of Changes in the Speech, Language, and Swallowing Mechanisms**

Students will demonstrate knowledge and skills in assessment across the life span for disorders and differences associated with:
- articulation;
- fluency;
- voice and resonance, including respiration and phonation;
- receptive and expressive language (phonology, morphology, syntax, semantics, pragmatics, prelinguistic communication, and paralinguistic communication) in speaking, listening, reading, writing, and manual modalities;
- hearing, including the impact on speech and language;
- swallowing (oral, pharyngeal, esophageal, and related functions, including oral function for feeding, orofacial myology);
- cognitive aspects of communication (e.g., attention, memory, sequencing, problem solving, executive functioning);
- social aspects of communication (e.g., behavioral and social skills affecting communication);
- augmentative and alternative communication.

6. **General Knowledge and Skills Applicable to Professional Practice**

Students will demonstrate:
- ethical conduct;
- integration and application of knowledge of the interdependence of speech, language, and hearing;
- engage in contemporary professional issues and advocacy;
- processes of clinical education and supervision;
- professionalism and professional behavior in keeping with the expectations of the speech-language pathologist;
- interaction skills and personal qualities, including counseling and collaboration;
- self-evaluation of effectiveness of practice.

Source: *Standards for Accreditation of Graduate Education Programs in Audiology and Speech-Language Pathology. Council on Academic Accreditation. Approved February 2016 – Effective August 1, 2017*
Enrollment Requirements

Registration in the graduate program is conditional upon completion of all academic pre-
requisite course requirements set forth by the American Speech-Language-Hearing Association
(ASHA) for certification and the NYMC graduate program. These requirements are expected to
be completed prior to the start of the graduate program.

Academic Prerequisites

The Council on Academic Accreditation (CAA) of the American Speech-Language-Hearing
Association (ASHA) requires that all applicants successfully completed the following courses
before starting the program:

ASHA Prerequisites Requirements

- **Biological Science** - at least one course - acceptable courses in biological sciences should
  emphasize a content area related to human or animal sciences (e.g., biology, human
  anatomy and physiology, neuroanatomy and neurophysiology, human genetics,
  veterinary science).
- **Physical Sciences** - at least one course - acceptable courses in physics or
  chemistry. Courses in biological and physical sciences specifically related to
  communication sciences and disorders (CSD) may not be applied.
- **Statistics** - at least one course - research methodology courses in communication
  sciences and disorders may not be used to satisfy the statistics requirement.
- **Social Sciences** - at least two courses - acceptable course include psychology, sociology,
  anthropology, or public health.

Department of Speech-Language Pathology Prerequisite Requirements

- One course in phonetics with phonetics transcription component.
- One course in anatomy and physiology of speech or speech-hearing.
- One course in child development/child language development.

All prerequisite courses must be satisfactorily completed prior to starting the program.

Graduate Curriculum

The graduate curriculum and course descriptions can be found in Section 1 of this handbook.

In addition to the required courses in the curriculum, the program offers two elective
opportunities.

**Overseas Elective**

This elective course will focus on the ongoing development of clinical skills in measurement and
evaluation procedures for adults with speech, language, and/or swallowing disorders in a
variety of locations outside the United States proper. This will include approved international
and territorial sites. Students will engage in collaborative projects with other students at the
site, as well as explore the delivery of speech-language pathology, and other healthcare services to adult and pediatric populations in a variety of settings.

**Research Experience**

Students selecting this option will complete an extensive review of existing literature or complete a clinical research project on a specific topic in an area endorsed by a faculty mentor. Students may be participating in components of clinical research, inter-professional education opportunities, or community-based initiatives. Finished products will include a compilation of the information and presentation of the project in selected local and/or regional venues.

**Comprehensive Examination**

Students complete a comprehensive exam as a summative evaluation. Successful completion of this exam is a requirement for graduation.

The examination has both a written and oral component designed to evaluate students’ ability to apply knowledge and skills to develop a comprehensive assessment and treatment plan that reflects an appreciation for interdisciplinary care. The comprehensive exam uses a case-based approach to allow students to demonstrate the use of the evidence-base, critical and flexible thinking, and the capacity to integrate new learning in clinical decision-making.

The process is designed to use SIM-based activities focused on the assessment of knowledge and skills across the disorders of the discipline. Student activities would be recorded so that they can review their performance and provide a written reflection.

The exam is a summative assessment conducted during the second year of the program across multiple days.

**Student Portfolio**

Students are required to maintain a portfolio each semester of the program. Updates are expected in the following areas:

- **Resume** – This document should contain current information about you and must contain sections describing your clinical experiences for each semester you are in clinic.
- **Program of Study** – This should list the courses you have had/are currently enrolled in along with a description.
- **Clinical Activities** – Include examples of clinical writing (e.g., evaluation reports, SOAP notes, lesson plans, self-reflections, etc.) and clinic activities/materials created. The
- **Academic Writing** – This section should contain examples of work completed within various courses. This might include brochures, case studies, responses to competency questions, term papers, etc. PowerPoint presentations prepared for classroom activities should be included as well.
- **Clock Hours** – An up-to-date summary of your clinical clock hours must be included.
- **Additional information may be included in the portfolio as determined by the student or faculty.**
Academic Standing

Students are required to maintain Satisfactory Academic Standing (SAT) toward a degree at all times across four components:

1. A grade point average (GPA) that meets or exceeds the defined graduation standard of 3.0 - A Satisfactory Grade Point Average for good academic standing is a B average as represented by an overall GPA of 3.00 or above. Students pursuing the MPH degree must also achieve a minimum grade of B in program core and required courses. Courses in which a grade of B is not attained may have to be repeated at the discretion of the program director or department chair.

2. Satisfactory completion of all clinical education requirements - Satisfactory completion of clinical education requirements requires students to achieve a passing grade or a GPA of 3.00 or above, depending on their program, in all clinical education requirements.

3. Adherence to the Student Code of Academic Integrity and Professionalism in all settings (classroom, clinic, practicum sites, offices, & laboratories) - Adherence to professional conduct standards requires students to comply with the Student Code of Academic Integrity and Professionalism and the applicable Professional Code of Ethics and/or Scope of Practice.

4. Timely fulfillment of degree requirements - Timely fulfillment of degree requirements requires completion of degree requirements within the stated time limits, maintenance of continuous enrollment and enrollment in the courses needed for graduation.

   MS, SLP – 2 years (A year is defined as consecutive fall, spring, and summer semesters)

Under extraordinary circumstances, an extension of time limits to fulfill degree requirements may be granted by the Dean upon recommendation of the Vice Dean.

A student who meets all components is said to be in Good Academic Standing. Students must be in good academic standing to continue their studies and receive a degree.

Procedures for SLP

1. Academic Warning: A student will be placed in warning status if the overall GPA falls between 2.70 and 3.0 at the end of the first fall semester. Students on academic warning status will not be allowed to continue in practicum during the warning period. Any student who pass a course with a grade of C or C- or who do not demonstrate mastery of course-related knowledge and skills will be required to successfully complete an academic remediation plan. The plan will be developed by the faculty member and student and approved by the department chair.
A student who has been placed into warning status will be notified by the Vice Dean by mail. This letter will instruct the student to consult with the department chair to determine what steps must be taken to regain good academic standing. The student will be required to consult with his/her department chair or program director for appropriate course selections or other strategies to rectify their academic deficiency. The student may continue to receive Title IV aid.

2. **Academic Probation:** A student will be placed on academic probation if the overall GPA falls below 2.70 at the end of the first fall semester or if the overall GPA falls below 3.0 at the end of the first spring, first summer, or second fall semesters. Students on academic probation will not be allowed to continue in practicum during the probation period and will be required to successfully complete an academic remediation plan. The plan will be developed by the faculty member(s) and student and approved by the department chair. Students on academic probation at the end of first spring, first summer, or second fall semesters may be dismissed from the program.

A student placed on academic probation will be notified by the Vice Dean by mail. This letter will instruct the student to consult with his/her department chair to determine what steps must be taken to regain good academic standing. The student will be required to consult with his/her department chair or program director for appropriate course selections or other strategies to rectify their academic deficiency.

3. **Clinical Probation:** Students are enrolled in clinical practica each semester and are expected to progress through their clinical work meeting or exceeding minimum performance levels for successive clinical placements to include attainment of the expected level of accomplishment in “essential function” for speech-language pathology, as defined in the Speech-Language Pathology Student Handbook. The grading scale for clinical practicum is A, A-, B+, B, and F. A successful clinical practicum experience is defined as completion of 15 hours with a grade of B or higher. Students who receive a grade of F in a clinical practicum will be placed on probation and will be required to repeat the practicum. Students on clinical probation will be required to successfully complete a Clinic Remediation Plan. The plan will be written to provide specific goals and objectives for clinical knowledge and skills that must be demonstrated during the remediation semester. The formal plan will be developed with the clinical education director, appropriate clinical educator(s), and the student and approved by the department chair. The grading standards will be the same as in a regular practicum. If, at the end of the repeated practicum, the student receives an F or below, that student will be dismissed from the program.

A student placed on clinical probation will be notified by the Vice Dean by mail. This letter will instruct the student to consult with his/her department chair to determine what steps must be taken to regain good academic standing. The student will be required to consult with his/her department chair or program director for appropriate course selections or other strategies to rectify their academic deficiency.
A student will not be certified for graduation from the program if, in the opinion of the faculty, that student does not demonstrate acceptable clinical skills. The student may be permitted to enroll in one additional clinical practicum in order to demonstrate a level of clinical knowledge and skills acceptable to the faculty. Failure to demonstrate acceptable clinical knowledge and skills during the additional practicum experience will result in dismissal from the program.

Any student placed on academic or clinical probation may continue to receive Title IV aid for the first such semester or payment period while in this status. Students who remain in probation status for subsequent semesters, however, will not be eligible to receive Title IV aid for those subsequent semesters or payment periods. Reclassification to warning status during the probation period may be considered as a sign of adequate progress towards restoration of good academic standing, as outlined in the terms of the individual student’s probation, and will restore the student’s eligibility for Title IV aid dependent upon other factors such as financial need and enrollment status.

**4 Dismissal:** If a student fails a required course in the speech-language pathology curriculum, he or she will be dismissed from the program unless able to demonstrate that the failure was not part of a pattern of poor academic performance in academic courses. If allowed to continue (by approval of the faculty of the Department of Speech-Language Pathology), the student may be granted a one-year leave of absence, subject to approval by the Department Chair and the Dean, and resume the program the next time the failed course is offered. If the leave of absence is approved, the student will, upon returning, enroll in only the previously failed course and will be considered to be in academic probation status (see above). The student will not participate in clinical activities while remediating the failed course. The student will not be eligible to graduate until the clinical experience deficit is made-up.

If a student fails a second, different course after successfully completing a course remediation, that student will be dismissed from the program.

If a student fails two or more courses in a semester, that student will be dismissed from the program. This includes academic coursework as well as clinical practicum.

Students who fail a repeated clinical practicum (grade of F) will be dismissed from the program.

Any student who has been dismissed will be notified by the Vice Dean by mail. The letter will advise the student of the right to appeal and the deadline for submitting a request for an appeal. Dismissal will become effective four weeks from the date of the letter. A student who is dismissed will not be readmitted.
5 **Frequency of Monitoring**: Academic and clinical progress is reviewed by the department chair and the Vice Dean, documented and reported to the Dean at a minimum at the end of each semester in which the student is enrolled, or upon a student’s returning from leave of absence.

6 **Appeal**: Any appeal of dismissal should be directed to the Vice Dean and must be postmarked no later than ten (10) business days after the date of the dismissal letter. The appeal must be in writing and must detail the basis for challenging the finding of facts and/or the sanctions imposed. The Vice Dean will appoint and convene an *ad hoc* Faculty Committee within ten (10) business days of the receipt of the appeal letter to review all material. The student shall be notified of the date, time and place of the Committee meeting at which the student shall have the right to appear. Legal representation is not permitted at this meeting. In the event that the student fails to attend without cause, the Committee shall proceed in his/her absence. The Committee will present its findings and recommendation to the Vice Dean who will notify the student about the outcome of the appeal within ten (10) business days of the meeting, with a copy of the notification letter to the Dean. The student shall have the right to appeal the decision of the Committee by submitting a letter directly to the Dean within ten (10) business days of receipt of the decision of the Committee. The Dean shall review all of the relevant material and issue his decision within ten (10) business days from the date of receipt of the student’s letter. This resolution is final.

**Academic and Clinical Advising**

Students are assigned to an advising group and an individual academic advisor during the first few weeks of classes.

*Individual Academic Advisor*: Each student is assigned an academic advisor. Students are encouraged to meet with their academic advisor, as needed, throughout the program, to seek advice or to clarify information. Documentation of advising meetings is completed in Degree Works on the TouroOne site.

*Advising by Other Faculty*: There will be instances when students may seek information or guidance from a faculty member other than their assigned academic advisor. These meetings should be documented as advising notes in Degree Works on the TouroOne site.

*Group Advising Sessions*: Each student is assigned to an advising group that is led by a team of academic and clinical faculty. Group advising occurs three times per semester and as often as necessary. These sessions are distributed throughout the semester; within the first few weeks of the semester, at midterms, and prior to finals week. Group advising sessions are designed to review various policies, procedures and topics that are pertinent to the graduate cohort. Documentation of group advising sessions will consist of a session agenda and notes from each advising group faculty team; this information will be posted in each students’ advising file in Degree Works.
FALL TERM SLP I AND SLP II

Group Advising Meeting 1:

- Review of NYMC Code of Academic Integrity and Professionalism with knowledge verification by student signature;
- Review of Essential Functions with knowledge verification by student signature;
- Verification of receipt and knowledge of content of Student Handbook (or updates) and Clinic Handbook (or updates) by student signature;
  - The signed verification form will be maintained in the students’ academic record
- Completion of Academic Plan of Study signed by the student and advisor; the original added to the student’ academic file and a copy provided to the student. The plan will be updated, as needed.
- Open forums

Group Advising Meeting 2:

- Open forum

Group Advising Meeting 3:

- Registration for next semester
- Review of finals schedule
- Review of end of semester academic and clinical rotation wrap-up
- Open forum

SPRING TERM SLP I

Group Advising Meeting 1:

- Open forum

Group Advising Meeting 2:

- Open forum

Group Advising Meeting 3:

- Registration for next semester
- Review of finals schedule
- Review of end of semester academic and clinical rotation wrap-up
- Open forum

SPRING TERM SLP II

Group Advising Meeting 1:

- Open forum
**Group Advising Meeting 2:**

- Graduation updates
- Open forum

**Group Advising Meeting 3:**

- Graduation updates
- Open forum
- Review of end of semester academic and clinical rotation wrap-up
- Open forum

Documentation of group advising sessions will consist of a session agenda and notes from each advising group faculty team; this information will be posted in each students’ advising file in Degree Works.

**Clinic Advising**

The Director of Clinical Education works with all students on clinical placement considerations and monitors the clinical performance for both on-campus and off-campus clinical experiences.

**Individual Clinic Advisor:** Students meet with the Director of Clinical Education during the second semester of the program to discuss externship placements and to discuss a tentative sequence of placement activities. The Director continues to meet with students in subsequent semesters to update information and further refine external rotation activities.

**Group Advising Sessions**

Group advising in the area of clinical education will be at the same time as the academic advising session. Topics related to clinical education will be provided by the Director of Clinical Education and will focus on clinic policies, procedures, and other topics relevant to the graduate cohort.

Documentation of clinic group advising will consist of a session agenda.

**Academic and Clinical Remediation**

The Department of Speech-Language Pathology is committed to students acquiring the knowledge and skills needed to be effective speech-language pathologists. For academic and clinical practicum courses, this is intended to ensure that students (1) master the totality of course content, (2) demonstrate mastery of competencies associated with particular courses, (3) fully understand what it means to behave in an ethical and professional manner, and (4) are not surprised by a substandard grade at the end of the term. To achieve these goals: any time a student achieves a grade of below 80% on any assignment, paper, quiz, exam, or project within a particular course or fails to demonstrate a competency required for an academic or clinical course, the student should initiate a meeting to discuss the situation with the course instructor. Such discussions will generally be held in person. Such discussions will also generally be noted in the student’s school file. Discussions with students (again generally to be held in person) may also be initiated by the course instructor/clinical educator for other reasons including, but not limited to, chronic tardiness, lack of preparation, frequent absences, or disruptive or other unprofessional behavior either in or outside of class or clinic. Such discussions will be documented in the student’s academic file. Regardless of the reason, the goal of these
discussions will generally be to help the student to resolve the situation (e.g., to allow them to demonstrate mastery of the particular course content or competency involved; to help them modify their behavior). This will often include the development of a course-specific remediation plan. For course content or competency-related issues, course-specific remediation plans may include (but need not be limited to) retaking the course, retaking relevant portions of an exam, taking an alternative exam, redoing a project in whole or in part, completing a competency-assessment activity or demonstrating competency in clinical performance. The completion of such plans will not generally change the student’s grade on the exam or project or the final grade in the course. In cases of behavior issues, course specific remediation plans may include (but need not be limited to) set expectations for student behavior, referral to the Department Chair, referral for evaluation of violations of the NYMC Student Code of Academic Integrity and Professionalism, or referral to the Office of University Academic Support Programs. Any time such a remediation plan is initiated, it will be generated by the instructor, advisor, and communicated in writing to the student. The plan will include a written statement of the knowledge or skill area requiring remediation, a brief description of the remediation action plan (any work, assignments or evaluations required) and deadlines for completion. Failure to complete any remediation plan successfully or any pattern of concerns across courses may lead to the initiation of a formal review based on the SHSP Satisfactory Academic Progress Policy. See Appendix Z in this section of the handbook for a copy of the Individual Remediation Plan form.

**Student Support Committee**

A formal referral to the Student Support Committee is made when students may require additional support beyond what is provided by an instructor generated academic or clinical remediation plan.

**Committee Charge:** to provide on-going direction for students in remediation for academic and/or clinical deficiencies.

**Committee Format:**
Chair: the chair of the committee will be appointed on an annual basis by the Chair of the Speech-Language Pathology Department. Responsibilities of the chair will include oversight of sub-committees
Sub-committees will be formed [2 members each] to work with individual students in academic and/or clinical remediation.

Members of the sub-committees shall rotate from within faculty of the Department of Speech-Language Pathology. Departmental Chair, academic advisor for specific student and Director of Clinical Education (in cases of clinical deficiencies) shall be excluded from sub-committee membership.
Identification of students:
Academic and clinical faculty will identify students not meeting academic standards and/or not achieving clinical proficiency as outlined by an existing remediation plan. Such students will be referred to the chair of the Student Support Committee.

Sub-Committee process:
Sub-Committee will meet with referring academic and/or clinical faculty and review/re-work the remediation plan.

Sub-Committee will seek information from student regarding perceived needs for support and direction relative to the remediation plan.
Sub-Committee will obtain feedback on a weekly basis from clinical supervisors regarding student’s clinical performance and development of competencies (for those students on clinic remediation).

The remediation plan will be developed detailing the expectations for student performance. This plan may reflect a negotiated compromise to balance the needs of the student with the availability and needs of the faculty. Student will sign off on plan.

Sub-committee will meet with student bi-weekly to monitor and document progress on plan. For students receiving services from the Office of University Academic Support Programs, documentation will be made available to them for purposes of continuity. Documentation for other identified students will be managed internally by the department.

Essential Functions in Clinical Speech-Language Pathology

Approved by Department of SLP on May 22, 2017

Essential Functions - Overview

The Department of Speech-Language Pathology at New York Medical College prepares skilled clinicians who are committed to evidence-based and ethical practice in the delivery of speech-language and swallowing services in healthcare facilities and other professional settings. The curriculum is focused on an integration of research and clinical applications across academic and clinical coursework. The department supports and initiates the development of inter-professional practice skills within the college and in community-based settings. The department promotes clinical excellence in the community through service activities and continuing professional education opportunities. The department affirms its commitment that graduates meet the standards for clinical certification through the American Speech-Language-Hearing Association. Toward this end, graduate students must demonstrate essential functions for the education and practice of speech-language pathology. The Department is committed to assisting qualified students with disabilities through reasonable means and accommodations to complete the Master’s degree in Speech-Language Pathology. Students who need accommodations to meet the essential functions of speech-
language pathology should contact the Office of Academic Supports. It serves as a resource to students at the College and is the designee to evaluate and process all applications from students seeking appropriate and reasonable accommodation by the College. Information about the Office of Academic Supports is available to interested individuals at https://www.nymc.edu/school-of-medicine-som/advising-and-mentorship/academic-support/.

“In order to acquire the knowledge and skills requisite to the practice of speech-language pathology to function in a broad variety of clinical situations, and to render a wide spectrum of patient care, individuals must have skills and attributes in five areas: communication, motor, intellectual-cognitive sensory-observational, and behavioral-social. These skills enable a student to meet graduate and professional requirements as measured by state licensure and national certification. Many of these skills can be learned and developed during the course of the graduate program through coursework and clinical experiences. The starred items (*), however, are skills that are most inherent and should be present when a student begins the program.”

Source: Council of Academic Programs in Communication Sciences and Disorders, 2007

### Essential Function Domain 1 - Communication

A student must possess adequate communication skills to:

- ✓ Communicate proficiently in both spoken and written English language.
- ✓ Possess reading and writing skills sufficient to meet curricular and clinical demands.*
- ✓ Perceive and demonstrate appropriate non-verbal communication for culture and context.*
- ✓ Modify communication style to meet the communication needs of clients, caregivers, and other persons served. *
- ✓ Communicate professionally and intelligibly with patients, colleagues, other healthcare professionals, and community or professional groups.
- ✓ Communicate professionally, effectively, and legibly on patient documentation, reports, and scholarly papers required as a part of course work and professional practice.
- ✓ Convey information accurately with relevance and cultural sensitivity.

### Essential Function Domain 2 - Motor

A student must possess adequate motor skills to:

- ✓ Sustain necessary physical activity level in required classroom and clinical activities.*
- ✓ Respond quickly to provide a safe environment for clients in emergency situations including fire, chocking, etc.*
- ✓ Access transportation to clinical and academic placements.*
- ✓ Participate in classroom and clinical activities for the defined workday.*
- ✓ Efficiently manipulate testing and treatment environment and materials without violation of testing protocols and with best therapeutic practice.
Manipulate patient-utilized equipment (e.g., durable medical equipment to include AAC devices, hearing aids, etc.) in a safe manner.

Access technology for clinical management (i.e., billing, charting, therapy programs, etc.).

**Essential Function Domain 3 – Intellectual / Cognitive**

A student must possess adequate intellectual and cognitive skills to:

- Comprehend, retain, integrate, synthesize, infer, evaluate and apply written and verbal information sufficient to meet curricular and clinical demands.*
- Identify significant findings from history, evaluation, and data to formulate a diagnosis and develop a treatment plan.
- Solve problems, reason, and make sound clinical judgements in patient assessment, diagnostic and therapeutic plan and implementation.
- Self-evaluate, identify, and communicate limits of one’s own knowledge and skill to appropriate professional level and be able to identify and utilize resources in order to increase knowledge.
- Utilize detailed written and verbal instruction in order to make unique and independent decisions.

**Essential Function Domain 4 – Sensory / Observational**

A student must possess adequate sensory skills of vision, hearing, tactile and smell to:

- Visually and auditorily identify normal and disordered fluency, articulation, voice, resonance, respiration characteristics, oral and written language in the area of semantics, pragmatics, syntax, morphology and phonology, hearing, swallowing, cognition, and social interaction related to communication.
- Identify the need for alternative modalities of communication.
- Visualize and discriminate anatomic structures and imaging findings (e.g., MBSS, FEES, etc.).
- Discriminate text, numbers, tables, and graphs associated with diagnostic instruments and tests
- Recognize when a client’s family does or does not understand the clinician’s written and/or verbal communication.

**Essential Function Domain 5 – Behavioral / Social**

A student must possess adequate behavioral and social attributes to:

- Display mature empathetic and effective professional relationships by exhibiting compassion, integrity, and concern for others.*
✓ Recognize and show respect for individuals with disabilities and for individuals of different ages, genders, race, religions, sexual orientation, and cultural and socioeconomic backgrounds.*
✓ Conduct oneself in an ethical and legal manner, upholding the ASHA Code of Ethics and university and federal privacy policies.*
✓ Maintain general good physical and mental health and self-care in order not to jeopardize the health and safety of self and others in the academic and clinical setting.*
✓ Adapt to changing and demanding environments (which includes maintaining both professional demeanor and emotional health).
✓ Manage the use of time effectively to complete professional and technical tasks within realistic time constraints.
✓ Accept appropriate suggestions and constructive criticism and respond by modification of behaviors.
✓ Dress appropriately and professionally.

### REVIEW/OUTCOMES

**Review Date:**

**Student Initials / Date:**

**Instructor Initials / Date:**

**Review Date:**

**Student Initials / Date:**

**Instructor Initials / Date:**
Overview

Students must represent the program at all times by exhibiting professionalism, ethical behavior, and reporting any occurrence of unprofessional behavior.

**NYMC Student Code of Academic Integrity and Professionalism**

Academic integrity and respect for the dignity of the individual are essential in any educational endeavor. In scholarly endeavors, all participants must commit themselves to truthfulness and honesty in the search for new insight and knowledge. In addition, honesty, integrity and respect in all interactions with colleagues, peers, teachers and support staff, as well as with patients and their families, are essential professional attributes. As a community devoted to the health sciences, professionalism is a core value. The attitudes and behaviors described by the term professionalism serve as the foundation of the expectations that society has of us as members of the medical and health sciences community. Therefore, as professionals, practitioners, scientists and students, we value attitudes, behaviors and habits expected of professionals – e.g., commitments to high standards of competence and performance; integrity, honesty and ethical behavior; respect for all individuals regardless of gender, sexual orientation, race, religion, age, national origin, marital status, veteran status, disability, or occupation or level of training; meeting responsibilities and commitments; excellent communication skills, reflecting behaviors expected of professionals; maintaining appropriate relations with patients, colleagues and others; managing conflicts of interest; continuous self-improvement; and honoring the trust that is placed in us by society. By accepting admission to New York Medical College, students commit to the ideals, ethics and appropriate conduct of their chosen profession. The full Student Code of Academic Integrity and Professionalism is available in Appendix A.

**School of Health Sciences and Practice Procedures for Addressing Violations of the Student Code of Academic Integrity and Professionalism**

Violations of Student Code of Academic Integrity and Professionalism, including failure to report violations of student conduct or professionalism, may result in the student being subject to disciplinary action. The document - Procedures for Addressing Violations of the Student Code of Academic Integrity and Professionalism- is available in Appendix B.
ASHA Scope of Practice and Code of Ethics

Students are expected to understand the framework of the discipline of speech-language pathology practice, the domains of service delivery, and the domains of professional practice. The Scope of Practice document is an official policy of the American Speech-Language-Hearing Association defining the breadth of practice within the discipline. This document is available in Appendix C.

Students are required to adhere to the most recent version of the American Speech-Language-Hearing Association (ASHA) Code of Ethics. Students should become well acquainted with the Code of Ethics so that the judgments and decisions made as a graduate student form a solid ethical foundation for their future clinical practice as speech-language pathologists. Questions or concerns regarding the Code of Ethics or considerations of ethical behavior may be directed to any faculty member. The ASHA Code of Ethics is available in Appendix D.

The main principles of the **Code of Ethics** are:

**Principle of Ethics I**
Individuals shall honor their responsibility to hold paramount the welfare of persons they serve professionally or who are participants in research and scholarly activities, and they shall treat animals involved in research in a humane manner.

**Principle of Ethics II**
Individuals shall honor their responsibility to achieve and maintain the highest level of professional competence and performance.

**Principle of Ethics III**
Individuals shall honor their responsibility to the public when advocating for the unmet communication and swallowing needs of the public and shall provide accurate information involving any aspect of the professions.

**Principle of Ethics IV**
Individuals shall uphold the dignity and autonomy of the professions, maintain collaborative and harmonious interprofessional and intraprofessional relationships, and accept the profession’s self-imposed standards.

**Respect**

Respect for others is essential in therapeutic and professional relationships. The Department of Speech-Language Pathology recognizes that students, staff, faculty, and clients each bring individual cultural experiences, belief systems, and biases. In all interactions, members of the Department of Speech-Language Pathology are expected to demonstrate respect for others and uphold the College policy of nondiscrimination.
Attitude

Students are expected to possess and demonstrate personal qualities of honesty, dedication, responsibility, flexibility, compassion, sensitivity to differences and diversity, inclusiveness, and a positive outlook. Students are expected to: treat faculty, clients, clinical educators, staff, and peers with respect; display a willingness to learn; be able to accept constructive feedback; be punctual; and, be respectful of others in the classroom learning environment.

Attendance

Students are expected to attend all scheduled classes, labs, clinics, and mandatory program-related meetings (e.g., orientation), unless excused in advance by the instructor. Absences and tardiness may negatively impact demonstration of required competencies and professionalism, including grades assigned in academic or clinical courses.

Ability to Work Independently & Demonstrate Learning Outcomes Individually

Students are expected to initiate and pursue study independently and to accept responsibility for their own learning. All assessments of student knowledge and skill must be the student’s own work unless group submission is specified by the instructor. Prior to submission, it is each student’s responsibility to seek clarification about whether projects or assessments are expected to be completed individually or may be completed collaboratively. Under no circumstances may a student share their NYMC log in credentials with another student or provide access to another student to online learning or assessment platforms (e.g., Canvas).

Ability to Work with Others

Students are expected to cooperate, participate, share information, and show respect for fellow students and colleagues when learning. When group projects or assessments are assigned it is expected that each member of the group will contribute as an active and respectful collaborator.

Appearance and Dress

Students are expected to display a confident and mature professional demeanor and to observe professional guidelines for cleanliness and appropriate dress at all times. See also expectations for professional appearance required in all clinical settings. This topic is addressed in the Clinic Handbook.

Citizenship

Students are expected to demonstrate the attributes expected of a professional in all interactions within the Department of Speech-Language Pathology and when representing the
Department in the community. Students are expected to uphold the college’s non-discrimination policy at all times. As future professionals it is expected that throughout their enrollment students will adhere to city, state, and federal laws and regulations. Any student convicted of a misdemeanor or felony during their enrollment will be evaluated under the NYMC Student Code of Academic Integrity and Professionalism.

**Use of Social Media**

The Department of Speech-Language Pathology recognizes that social networking websites and applications are important and frequently used means of communication, collaboration, and networking. As future professionals, students are strongly advised to consider that, regardless of privacy settings, all information on social networking web sites may be viewed by clients, clients’ family members, colleagues, and current and prospective employers.

Students are advised against accepting social media connections with clients or members of client’s families. The following actions are strictly forbidden and will result in evaluation under the NYMC Student Code of Academic Integrity and Professionalism and typically will lead to dismissal from the program.

Any unauthorized release of client information protected by Health Insurance Portability and Accountability Act (HIPAA) or the Family Educational Rights and Privacy Act (FERPA) including but not limited to:

- Revealing the personal health or educational information of other persons, and this includes any identifying information including name, date of birth, age, diagnosis, gender, gender identity, race, ethnicity, contact information or clinic identity numbers, any images of the individual, or any other means through which an individual could be identified.
- Conveying private (protected) academic information of clients seen in educational settings or those of another student in the Department of Speech-Language Pathology, including but not limited to: course, exam, or assignment grades; narrative evaluations; adverse academic actions; professional behavior checklists or contracts; or clinical performance evaluations to any party within or outside the program.

Any misrepresentation of role or credentials including but not limited to:

- When posting information on social network sites, presenting themselves as an official representative or spokesperson for NYMC, the Department, or any affiliate organization;
- inflating or misrepresenting academic or clinical credentials in on-line or face-to-face environments;
- Representing themselves as another person, real or fictitious, or otherwise attempt to obscure their identity as a means to circumvent the prohibitions included in this handbook.
Any threat or implication of threat to others including, but not limited to:

- Threatening or presenting statements that imply threats to anyone including but not limited to fellow students, faculty, peers, staff, clients, caregivers, clinical supervisors, or groups of individuals such as linguistic or cultural groups.

Additionally, the actions listed below may be considered a violation of Student Code of Academic Integrity and Professionalism and will result in evaluation under the Code.

- Posting or sharing of statements or photographs that imply disrespect for any person, group of persons, or identities as included in the College nondiscrimination policy or its equivalent.
- Displays of information including personal photographs or photographs of others that may reasonably be interpreted as condoning irresponsible use of alcohol, substance abuse, or sexual promiscuity.
- Displays of personal engagement in illegal activities including use of illegal recreational drugs.
- Posting of potentially bullying, inflammatory, discriminatory, threatening, or unflattering material on another individual’s social media site.

**New York Medical College’s Social Media Policy Statement**

In keeping with New York Medical College’s (NYMC) and Touro College and University System’s policies on student online conduct, College staff members do not “police” online social networks and the College is firmly committed to the principle of free speech. However, when the College receives a report of inappropriate online conduct, we are obligated to investigate; This is true even when a student posts to a personal social media account using their own phone or computer while off-campus or during a break. The College has the right to discipline students for misconduct or lack of professionalism wherever it occurs, including online.

Academic Support

The purpose of the Office of Academic Support Programs is to foster a better learning environment for, and provide resources to all students at New York Medical College. Programs are designed to help students study more effectively and become more self-sufficient and proactive in their learning. These programs include: peer learning partners, workshops given periodically to address study techniques, a study partner match service, one-on-one academic support advice and assistance in making study plans, standardized test preparation lectures and workshops, and writing assistance.

The Office of Academic Support also evaluates and processes all applications from students seeking appropriate and reasonable accommodation by the College as stated in the Institution's Policy on Students with Disabilities and Application for Accomodations. The office will provide support to students who identify themselves as needing special accommodations, per the ADA, and communicate those needs to the dean and course directors.

Kristina H. Petersen, Ph.D.

NOTE: For any questions regarding proctoring of exams and/or grades, please contact the Office of Medical Education, as Student Affairs has no jurisdiction over exam or grading policies. It is also the policy of the College to provide reasonable accommodations, as required by Section 504 of the Rehabilitation Act of 1973, the ADA and the ADA Amendments Act of 2008 (the "ADAAA"), to qualified students with a diagnosed and documented disability who have identified themselves to the College in a timely manner as individuals with a disability so that such qualified students will be capable of completing the full curriculum of required courses and electives under College policies and in accordance with applicable technical standards for admissions and enrollment.
Student Mental Health and Wellness

Maintaining balance and stability.

Website: https://www.nymc.edu/current-students/student-life/health-wellness-support/

Mental Health is a state of psychological and emotional well-being. And it’s a key partner to physical health.

At NYMC, students are encouraged to use our Student Mental Health and Wellness Services—just as you might use a gym—to keep yourself mentally and emotionally fit for the joys and challenges of academic life and beyond.

In addition to our Mental Health and Wellness Counseling Services, NYMC offers classes and tools to help students stay balanced and centered.

Housing and Residential Life

We believe that how you perform as an NYMC student has a lot to do with where and how you live. We are committed to providing a residential community that is more than just buildings and rooms. We want every student to truly feel part of a community of like-minded peers who live together comfortably, safely and with respect for each other. Supported by a healthy and enjoyable living environment, students have the stability they need to be their best. The Office of Student and Residential Life provides a range of housing options for full-time, matriculated medical and graduate students. We strive to be responsive to individual student’s needs and are available to address any issues at any time—whether school is in session or not.

About the Library:
The Health Sciences Library (HSL) serves all faculty, students, employees, and sponsored residents and fellows of the New York Medical College.

History: New York Homeopathic Medical College first opened a Library in 1885 at the behest of students and alumni when the college was at Flower Hospital. In 1972 the libraries of New York Medical College Flower and Fifth Avenue Hospitals and Westchester Academy of Medicine in Purchase, New York merged under an agreement signed by both parties. As of 2011, when New York Medical College became part of the Touro College and University System, all Touro faculty and students have onsite access to the library facilities and resources.

The New York State Library has designated the Health Sciences Library as a Leader Electronic Doorway Library. The Library is also a Resource Library in the Middle Atlantic Region (MAR) of the National Network of Libraries of Medicine (NN/LM). The Library actively participates in the Online Computer Library Center (OCLC) global network and remains a full member of METRO, the New York metropolitan area library planning cooperative. We honor METRO card access for the public via local libraries.

Library Hours

The Health Sciences Library is open 24/7 but is ID access only outside of normal service hours. Normal service hours are as follows:

- **Monday** - Thursday: 8AM - 10PM
- **Friday:** April - September: 8AM - 5PM
  October - March: 8AM - 3PM
- **Saturday:** Closed for Sabbath
- **Sunday:** 12PM - 8 PM
Security and Safety

It is the policy of the college to promote the safety and security of the academic community on campus; to prohibit any criminal or illicit activities including sexual assault or other sex offenses; to report any alleged criminal conduct to the appropriate enforcement authorities and to discipline any student, faculty member or employee after the college has conducted its investigation of the alleged conduct. Discipline may include suspension, expulsion, dismissal or termination of employment.

The deans of the respective schools within the College are responsible for the coordination and dissemination of information regarding sexual assault prevention measures during the student orientation process.

Lose something on campus? Let us help you find it by filling out our lost property form.

Mr. William Allison
Director of Security

Security Office
Basic Sciences Building
Valhalla, NY 10595
(914) 594-4226

Annual Security and Fire Safety Report ("Clery Act")
The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, or Clery Act, mandates that all Title IV educational institutions, without exception, prepare, publish and distribute an Annual Security and Fire Safety Report. This report consists of two basic parts: disclosure of the College’s crime statistics for the past three years; and information about the College’s current campus security policies. Prospective students and employees are entitled to request and receive a copy of the New York Medical College’s Annual Security and Fire Safety Report which is available below.

Paper copies of the College’s Annual Security and Fire Safety Report are available at the New York Medical College Security Office located in room 223 in the Basic Sciences Building (BSB) or by contacting Campus Security at (914) 594-4577.
Campus Security recognizes that student and staff safety are of utmost importance at NYMC. Crime can happen anywhere and it is because of this, the Campus Security Department has an ongoing program in safety education. A prepared College community is a safe community.
Financial Planning

Funding your graduate education at New York Medical College is a noteworthy investment. This venture requires a great deal of time, energy and thought. The Office of Student Financial Planning at New York Medical College offers students a financial program that assists them with their decision making before, during and even after they have graduated from New York Medical College. The Office strives to help students find and understand the numerous financial resources available and how these resources will impact their lives. Our goal is to sharpen your financial literacy, avoid costly mistakes and help you make sound and educated financial choices. New York Medical College graduates have one of the lowest student loan default rates in the nation. We believe our students have benefited from the 50-plus combined years of expertise of the Student Financial Planning Office. The field of financial aid is always changing. Technological advances are upon us and students have the ability to take better ownership of their financial aid information via school and industry websites. However, keep in mind that the best source of financial aid information lies with the Office of Student Financial Planning and we are always happy to help.

Student Organizations

NYMC Chapter of the National Student Speech-Language-Hearing Association

The Department of Speech-Language Pathology has a campus chapter of the National Student Speech-Language-Hearing Association. Membership is open to all enrolled students in the department. Each fall, during Orientation, the NYMC NSSLHA officers and faculty advisor meet with student to provide an overview of the chapter and goals for the upcoming academic year.

Alpha Eta National Honor Allied Health Honor Society

Chapter 83 of the Alpha Eta Society at Touro College and New York Medical College has been established in accordance with the national bylaws. The purpose of the society is to promote and recognize significant scholarship, exceptional leadership and contributions to the allied health professions.

- The following shall be eligible for election by the chapter to active membership to the society:
  Those graduate students who are enrolled in the occupational therapy, physician assistant, speech-language pathology and physical therapy programs leading to graduate degrees and are in their last year of enrollment in the allied health program;
- They shall have maintained an overall grade point average of 3.8 or better (out of 4.0) while enrolled in the allied health program on this campus. Students who meet the grade point requirement are eligible to apply for membership. Each academic program’s selection cannot exceed 20% of the eligible class’ population;
- They have shown capacity for leadership and achievement (i.e., promise for the profession) in their chosen Allied Health field;
- They have been recommended by members and approved by the dean of the Allied Health unit or his/her equivalent.
